## *Rules & Special Service Charges*

### *ABF 111-AA*

#### **ABF's Introduction**

The standard transportation services provided by ABF Freight System, Inc.<sup>®</sup>, (ABF<sup>®</sup>) and considered in our standard linehaul charges include normal pickup service at origin over the road transportation of the commodities; and normal delivery at final destination at a dock facility designed to receive freight shipments.

This publication contains the explanation of, and charges for, optional services that may be requested by the shipper, consignee or third party payor beyond those normally associated with standard transportation. Rules, charges and conditions of these optional services will apply on all shipments moving under pricing publications and agreements, including individual customer agreements, where ABF 111 is shown as a governing publication.

Provisions in this publication apply on shipments tendered on or after January 5, 2009 and are subject to change. Any exceptions will be noted in specific account pricing provisions.

*Visit [abf.com](http://abf.com) for current provisions.*

2. A "shipment" is a quantity of freight received from one shipper, at one place at one time for one consignee at one destination and covered by one bill of lading.
3. The term "customer" means a party that may be recognized as either the shipper (also referred to as consignor) or the consignee.
4. A. The term "truck" or "vehicle" means any vehicle or combination of vehicles handled as one unit, of not less than 35 feet in length, propelled or drawn by a single power unit and used on highways in the transportation of property. When the vehicles consist of a power unit and two or more trailers or containers, the combined length of the trailers or containers must not exceed 60 feet measured along the center longitudinal line of each trailer or container floor. Typically, a vehicle consists of two doubles trailers or a single van.  
 B. The term "standard trailer" or "van" means a trailer of not less than 35 feet in length.

7. Except as otherwise provided, the terms “Mode 1,” “Mode 2,” “Mode 3,” “Mode 4,” “Single Line,” “Points Served Direct,” or “Joint Line,” as used herein or in tariffs governed by this tariff, are defined as follows.

**Mode 1** - Shipments originated and delivered by ABF between points shown as ABF direct service points.

**Mode 4** - Shipments received by ABF from a connecting line and interchanged by ABF to a connecting line for delivery to the consignee.

When ABF, at its convenience, performs pickup or delivery at a point not shown as a direct service point on ABF’s Internet site ([www.abf.com](http://www.abf.com)), the point will be considered to have been a direct service point for such actual pickup or delivery. In addition, direct service provided by a subsidiary of ABF, such as ABF Cartage (ABFC), ABF Freight System Canada LTD. (ABFF), ABF Freight System (B.C.) LTD., is considered to be direct service by ABF.

  - B. Volume (VOL) or truckload (TL) apply only in connection with shipments moving on rates stated in units per type of equipment.

In the event provisions make reference to a minimum weight greater than 20,000 pounds and rates listed in Item 130 are shown to be applicable, the 20,000 pound rate in these tariffs at the minimum weight specified will be applied.

9. For shipments moving under provisions subject to rates other than those listed in Item 130 herein, minimum charge (MCHG), less-than-truckload (LTL), any quantity (AQ), volume (VOL) and truckload (TL) shipments are defined below:
  - A. Minimum charge (MCHG), less-than-truckload (LTL) or any quantity (AQ) apply only in connection with shipments which meet **each** of the following conditions:
    - (1) Shipments moving under rates subject to minimum weights of less than 20,000 pounds.
    - (2) Shipments effectively occupying less than 2250 cubic feet of line-haul equipment space. (“Effectively occupying” and “cubic feet” are further defined in Paragraph 14, herein.) Provisions of this sub paragraph will **not** apply in connection with shipments moving on full (not reduced) class (not exception) rates and will **only** apply when specific reference is made hereto.
    - (3) Shipments not moving on rates stated in units per mile or rates per type of equipment.

B. Volume (VOL) or truckload (TL) apply only in connection with shipments meeting any of the following conditions:

- (1) Shipments moving under rates subject to minimum weights of 20,000 pounds or more.
- (2) Shipments effectively occupying 2250 cubic feet or more of line-haul equipment space. ("Effectively occupying" and "cubic feet" are further defined in Paragraph 14, herein.) Provisions of this sub paragraph will apply only when specific reference is made hereto.
- (3) Shipments moving on rates stated in units per mile or rates per type of equipment.

10. The terms "Prepaid" and "Collect" mean:

- A. A prepaid shipment is one in which the charges for transportation services rendered at the request of the shipper, including charges for any special services performed at the request of the shipper, are to be paid by the shipper.
- B. A collect shipment is one in which the charges for transportation services, including special services rendered at the request of the consignee, or requested by the shipper for the consignee, are to be paid by the consignee.

11. The terms "Outbound Prepaid," "Inbound Collect," "Outbound Collect," and "Inbound Prepaid" mean:

- A. **Outbound Prepaid** means Mode 1 or Mode 2 prepaid shipments originating from a facility of the shipper for whom the special tariff provisions, (i.e., rates, discount, percentage expression, etc.) to be applied are named.

12. The term(s) "Specific Account Pricing," "Account Pricing," "Named Account Pricing," "Named Shipper Pricing," "Account Code Pricing," "Special Tariff Provisions," or similar words mean rates, charges, tariff or contract provisions that are restricted to apply only for the identified account.

The reference to rates, charges, tariff or contract provisions herein include, but are not limited to, various forms of pricing provisions that result in charges higher than, equal to or lower than those resulting from application of full (unaltered) class rates.

13. Refund, deduct, incentive refund and incentive deduct discounts are defined:

- A. Refund discounts are those discounts described by the use of the term(s) "refund," "claim," "abstract," "off bill" or similar words when no part of the discount is to be shown as a deduction on the freight bill. Incentive refund discounts apply similarly, but are further described by use of the term(s) "incentive," "volume incentive," "threshold," "per shipment" or similar words. Federal law requires that off-bill discounts/refunds and the party to whom they are paid be disclosed on the copy of the carrier freight bill presented for payment.
- B. Deduct discounts are those discounts which result in a reduction in the charges on the freight bill. Incentive deduct discounts apply similarly, but are further described by use of the term(s) "incentive," "volume incentive," "threshold," "per shipment" or similar words.

14. The terms “effectively occupying,” “effective occupancy,” “effective cube,” and similar terms, refer to the line-haul equipment space required to transport a shipment. Unless otherwise specified, “cubic feet” of a shipment will mean “effective occupancy” of that shipment.

Effective occupancy in cubic feet shall be determined by multiplying the greatest (most extreme) straight-line dimensions of length, width and height of space the shipment occupies in inches and dividing the total by 1,728 cubic inches (one cubic foot). All fractions under one-half inch will be dropped, all fractions of one-half inch or greater will be extended to the next full inch. Subject to the following minimum dimensions:

Height: A minimum vertical dimension of eight (8) feet shall be used to determine the cube of the shipment when top loading of **like** cargo is precluded because of:

- A. the nature of the shipment, including conditions which inhibit top-loading or which would pose a hazard of damage to cargo or its packaging;
- B. packaging or lack of packaging used
- C. palletization in “pyramided,” “rounded off,” or “topped off” fashion;
- D. specific instructions by the shipper in the form of a bill of lading notation, including instructions to avoid top-loading or double stacking; and/or
- E. the height of the shipment when it exceeds 60 inches.

Width: If the extreme width dimension of a shipment is six (6) or more feet, a minimum width of eight (8) feet will be used to calculate effective cubic occupancy.

For the purpose of determining NMFC density-based classifications, the dimensions of articles will be calculated in accordance with Section 8, Item 110, NMFC 100 Series.

15. The terms “Zip Zone,” “Zip Code Prefix,” “Three-Digit Zip Code,” etc., mean the first three characters of the postal code (including the Canadian postal code, if applicable) assigned to a particular point.
16. Unless otherwise specifically provided, where the carrier abbreviation “ABF” is used herein, it refers to each of the following or any combination thereof:
- ABF Freight System, Inc. (ABFS)
  - ABF Cartage, Inc. (ABFC)
  - ABF Freight System Canada LTD (ABFF)
  - ABF Freight System (B.C.) LTD

**APPLICATION OF TARIFF**

**ITEM 150**

This tariff contains terminal service rules and charges for application with shipments moving under rates and other provisions in this tariff, and in tariffs and contracts governed by this tariff.

**NON-APPLICATION**

**ITEM 151**

Except as otherwise provided, pricing provisions producing charges lower than the full unreduced class rates (including but not limited to commodity rates, discounts, percentage expressions, modified special service charges, exception ratings lower than the NMFC class or rating, and allowances) will not apply on:

1. shipments which are subject to Section 13712 quotations (often referred to as government tenders);
2. shipments that have departed the origin terminal moving on “collect on delivery” or “order notify,” or shipments that are converted to “collect on delivery” or “order notify” in route;
3. special service charges or charges advanced by ABF;
4. shipments subject to otherwise discounted class rate scales;
5. shipments subject to the “Exclusive Use of Vehicle” provisions of Item 525 and 525-1, herein and/or subject to the “Capacity Load Minimum Charge” provisions of Item 390 and 390-1, herein;
6. shipments subject to truckload or volume rates;
7. distribution charges, local beyond charges, handling charges, or any other charges applying in connection with pool distribution shipments. (Except, the charges on the linehaul portion of a pool distribution shipment may be reduced when all other criteria are met.);
8. commodities where the governing classification, STB NMF 100, publishes a “0” provision, or a “not taken” provision;
9. magazine, periodical, or flexible paper book covers or part covers, having value for credit purposes except when consignor declares a released value at time of shipment as provided in ABF 100, Section 2;
10. shipments moving between points in the same state, unless rated under ABF class rate tariffs listed in Item 130 herein.

**APPLICATION OF SPECIAL CHARGE WAIVERS**

**ITEM 155**

Except as otherwise provided, waivers or exceptions to special service charges will apply only for the paying party for whom the waiver or exception was established.

**QUOTATION OF ESTIMATED CHARGES**

**ITEM 160**

1. When ABF has furnished, either orally or in writing, an estimate of published tariff charges, that estimate will be based on the effective published tariff provision(s) and the facts concerning the shipment(s) which are provided to ABF.
2. Estimates of freight charges are furnished as a convenience to the shipping public, represent an approximation of freight charges, and are not binding either on ABF or the shipper.
3. All transportation charges on a shipment will be assessed on the basis of provisions legally in effect at the time of shipment and the characteristics of the freight actually tendered to ABF.

\*When diesel fuel prices equal or exceed \$3.60 per gallon, the LTL fuel surcharge continues to increase 0.1% with every one-cent increment. For example, when the index is at least 360 but less than 361, the LTL surcharge will be 26.9% and when the index is at least 361 but less than 362, the LTL surcharge will be 27.0%.

\*When diesel fuel prices equal or exceed \$3.60 per gallon, the TL fuel surcharge continues to increase 0.2% for every one-cent increment. For example, when the index is at least 360 but less than 361, the TL surcharge will be 53.8% and when the index is at least 361 but less than 362, the TL surcharge will be 54.0%.

Application:

1. The fuel surcharge level will be adjusted on Wednesday of each week based on the U.S. National Average Fuel Index of the prior Monday. The National Average Fuel Index is published by the Energy Information Administration of the U.S. Department of Energy and is available by telephone at 1-202-586-6966 or on the Internet at [www.eia.doe.gov](http://www.eia.doe.gov).
2. For the purposes of this item, 'TL' shall be defined as a shipment:
  - A. effectively occupying more than 28 linear feet of line-haul equipment space; or
  - B. having actual weight of 20,000 lbs or more (Note 1); or
  - C. moving as a Capacity Load (Items 390 and 390-1) (Note 2).

Note 1 – Not applicable for shipments moving under a Volume Price Quote.

Note 2 – Only applicable when the shipment exceeds 28 linear feet of line-haul equipment space or has an actual weight of 20,000 lbs. or more. Both the portion of the shipment subject to the capacity load minimum charge and the portion designated as overflow, as defined in Items 390 and 390-1 (Capacity Loads – Minimum Charge) will be subject to the TL fuel surcharge.

3. In applying the surcharge, first determine the freight charges that would otherwise be applicable without the effect of the surcharge, including the effect of the alternation process and any applicable discount or reduction. Once determined, the charge will then be subject to increase by the amount of the surcharge. The surcharge will be shown as a separate line entry on the freight bill.
4. Freight charges for line haul transportation shall include line haul, ocean, pickup and delivery charges such as, but not limited to, minimum charges, charges calculated from class or exception rates, density minimum charges, absolute minimum charges, minimum truckload charges, exclusive use minimum charges, capacity load minimum charges, per vehicle charges and per pup charges. Except as otherwise provided, the increase will not apply to charges for special services. Where a through rate is constructed by combining two or more factors, the surcharge shall be applied to the resulting total charges.

**DASHES BETWEEN RATE SCALES; APPLICATION OF RATES**

**ITEM 164**

Where rate scales in this tariff, or in any tariffs governed by this tariff, are separated by a dash (-), it shall indicate that the rate scales specifically shown and all rate scales in between are included. (e.g. MCHG-10M means all rate scales beginning with MCHG and ending with 10M).

**APPLICATION OF RATES - ZIP CODE PREFIX**

**ITEM 165**

1. Where rates are determined or the application of those rates is governed by Zip Code Prefix Groups, those Groups include all points assigned to the same first three digits of the U.S. Postal Service Zip Code. For example, where a Zip Prefix Group such as "386 thru 394" or "386-394" is used, the Zip Code Prefix Group is all inclusive of such three-digit zip code numbers.
2. A zip code prefix assigned to a customer's physical location will be used for rate making purposes.
3. Where no zip code prefix is provided for the actual origin (and/or destination), apply the zip code prefix for the nearest point for which a zip code prefix is provided, subject to Paragraph 1 above.

**APPLICATION OF SPECIFIC ACCOUNT PRICING**

**ITEM 166**

Specific Account Pricing (defined in Item 110, Paragraph 12) which is published to apply for a parent account, its subsidiaries and/or divisions, will apply only for subsidiaries or divisions which are majority-owned by the parent and will become effective one working day after prior notification is received by ABF of the account ownership.

Such prior notification must include the name of the parent company, the name of the division or subsidiary company, the street address, city, state (or province), and zip (or postal) code.

Notification must be made, in writing, for all changes in ownership or physical location, and directed to:

Account Information Management System Supervisor  
ABF Freight System, Inc.  
3801 Old Greenwood Road (Zip 72903)  
Post Office Box 10048  
Fort Smith, AR 72917-0048

Only one *specific account pricing provision* shall be applied per shipment. However, one loading and/or one unloading allowance may be applied in addition to the one applicable *specific account pricing provision*. Where combinations of rates are applicable, these provisions will apply separately to each component of the combination.

In the event ABF receives no shipments rated under a specific account pricing tariff item during a continuous 120 day period, ABF reserves the right to discontinue the item without further notice.

**AUTHORIZED SIGNATURES FOR TRANSPORTATION AGREEMENTS OR CONTRACTS**

**ITEM 168**

ABF's President, Senior Vice President - Yield Management & Strategic Development, and Director - Pricing are the only representatives or employees authorized to sign agreements or contracts covering the price, terms or conditions of ABF's transportation services. No other employee or representative of ABF is authorized to sign such agreements or contracts on behalf of ABF.

Electronic Signatures, as defined below, shall be recognized as valid forms of signature on such agreements or contracts, unless specifically excluded through the Global and National Commerce Act (E-Sign).

Electronic, digital, and digitized signatures shall be defined as:

1. Electronic Signatures: any sound, symbol, or process (specifically excluding e-mail) using an electronic medium to identify an individual (i.e., a password, or any of the other forms of electronic signature identified below.)
2. Digital Signature: an electronic signature using asymmetric cryptography to encrypt and decrypt messages.
3. Digitized Signature: a digital image of a physical signature created either by scanning a physical signature or using an electronic device to create a digitally replicated signature.

Where ABF is required to retain records of documents either by statute or other agreement, such records will be retained by an electronic record of the electronic, digital, or digitized signature.

The signature of an ABF employee on the bill of lading only acknowledges receipt of the freight. Continued use of an unauthorized bill of lading by the shipper will not constitute an implied acceptance by ABF.

**AUTHORIZATION TO SCREEN AIR CARGO**

**ITEM 170**

As required by the Transportation Security Administration (TSA), effective February 1, 2009, all shipments moving via air carrier through any portion of the transportation from original origin to final destination require consent from the shipper for the TSA to screen the shipment as deemed necessary. In tendering a shipment to any carrier listed in Item 105 herein, or their contractor, the shipper indicates agreement and consent to the terms and requirements contained within the Indirect Air Carrier Standard Security Program (IACSSP) in effect at time of pickup.

**APPLICATION OF CLASSES--ARTIFICIAL CONSTRUCTION OF DENSITY TO OBTAIN A LOWER CLASS (BUMPING)**

**ITEM 171**

"Bumping" is the declaration on the original bill of lading of an artificially higher weight for the purpose of causing a higher density that allows the article or piece being "bumped" to qualify for a lower classification rating.

"Bumping" may be performed under the provisions in Item 171, NMF 100 Series (NMFC) subject to the following:

1. "Bumping" provisions may only be used for commodity items in the NMFC that assign classes based upon density and then only for those that make specific reference to Item 171 in the NMFC.
2. Shipper may only "Bump" to the next lower (NMFC) class or rating. "Bumping" to an exception or freight all kinds class or rating is not permitted.
3. When the provisions of this rule are utilized, shipper must declare intent to "bump" at time of shipment and include the following items on the original bill of lading: actual cube, actual weight, density group (sub) embracing the actual density, declared density and declared weight for billing.

**RATE/ROUTE - HAWAII, PUERTO RICO OR THE VIRGIN ISLANDS**

**ITEM 175**

ABF serves points in Hawaii, Puerto Rico or the Virgin Islands through ABF Cartage, Inc. (ABFC).

Shipments moving between points in the contiguous United States and points in Hawaii, Puerto Rico or the Virgin Islands will be routed and rated jointly via ABF and ABFC (to the extent service is provided) unless the shipper (or consignee) specifically requests other arrangements and so notes that request on the bill of lading when the shipment is tendered to the originating carrier.

**BOATS, KAYAKS, OR CANOES - PACKING OR PACKAGING**

**ITEM 261**

Rates published by ABF for boats, kayaks, or canoes as described in NMF 100 will apply only when packed in wooden boxes. In the event that a shipment of boats, kayaks, or canoes is prepared via another method, the shipment will be subject to the provisions outlined in ABF 100 Series.

**ADVANCING CHARGES (Exception to NMF 100, Item 300)**

**ITEM 300**

No charges of any description will be advanced to shippers, owners, consignees or their agents, nor to their draymen or warehousemen, except charges which are incidental to the transportation of the shipment. The nature of charges to be advanced must be stated on the bill of lading at the time of shipment.

The charges for collecting and remitting the amount of the advance charges will be collected from the consignee, except that such charges may be prepaid by the shipper, providing notation to the effect is made by the shipper on the bill of lading and shipping order at time of shipment.

The charges for ABF advancing moneys as described above will be 6% of the amount being advanced subject to a minimum charge of \$59.65.

The term "Charges incidental to the transportation of the shipment" shall include only the following:

1. Inbound transportation charges (ocean transportation charges moving in foreign commerce will not be advanced).
2. Loading or unloading charges.
3. Charges for packing and crating the shipment.
4. Drayage charges, defined as local transportation within the pickup terminal area from actual origin to the line-haul carrier's dock.
5. In Bond or custom house charges.
6. Wharfage or handling charges on import shipments.
7. Warehouse storage or warehouse handling charges.
8. Broker's fees on customs or In Bond shipments (See Notes 1 and 2).
9. Demurrage.
10. Carrier's storage.
11. Immediate transportation entry (IT) paper.

Note 1 - When reference is made hereto, the nature of the charges to be advanced need not be stated on the bill of lading at time of shipment if they accrue at a point other than the origin.

Note 2 - Provisions of this item do not include the advancing of broker's fees on In Bond shipments moving from a place in a foreign country to another place in a foreign country and transported through the United States.

**ALLOWANCES**

**ITEM 315**

Allowances are subject to the following:

**Section 1: General Provisions**

1. Allowances calculated on shipment weight will be subject to a maximum amount per shipment based and calculated on 20,000 pounds.
2. Payment of the allowance will be made by ABF to the Customer:
  - A. Only in connection with shipments for which applicable freight charges have been received by ABF within 30 days of:
    - (1) the billing date in connection with shipments moving freight charges prepaid,
    - (2) the delivery date in connection with shipments moving freight charges collect,
  - B. And then only when a claim is filed by the Customer with ABF within 60 days of the date of the bill of lading or freight bill.
3. Pickup or delivery service must be provided by or at the authorization of ABF. Shipments utilizing the unauthorized services of a cartage agent will not qualify for an allowance.
4. In the case of loading, any temporary stowing components or materials required to protect and secure shipments for transportation must be furnished and installed by the shipper.
5. When another transportation carrier, for which no interline agreement exists between ABF and that carrier, requests delivery service to be performed by an ABF terminal on their behalf, the consignee's unloading allowance established via Specific Account Pricing with ABF will not be applicable.

**Section 2: Definition**

"Allowance" is an amount reimbursed to the Customer for performing (un)loading services that are usually performed by ABF. The amount must be reasonably related to the cost that ABF would have otherwise incurred.

**Section 3: Loading & Unloading Allowances**

1. ABF will spot a trailer at the Customer's dock or in the Customer's yard. When necessary, the Customer will move the trailer(s) between their trailer parking area and their dock.
2. The complete loading/unloading of freight must be performed by the Customer at its expense, without requiring any assistance from the ABF driver. The driver and power unit are to be released while loading/unloading is performed. At ABF's option, the driver may remain during loading/unloading, and may render assistance.
3. The complete loading of the freight includes the counting of the freight.
4. The Customer shall arrange to load (or unload, as the case may be) ABF's trailer(s). In either case, the Customer shall notate on the bill(s) of lading or freight bill(s), the total weight (in pounds) the Customer has loaded without the assistance of the ABF driver.
5. The Customer shall notify ABF when loaded and/or unloaded trailer(s) are ready for removal from the Customer's premises.

6. Customer shall have 24 hours from the time trailer(s) is spotted to load or unload. The actual weight of freight so loaded/unloaded by the Customer will be subject to the applicable allowance(s).
7. Loading/unloading allowances will not apply when Customer is required to provide loading/unloading service in accordance with the otherwise applicable tariff provisions, or Specific Account Provisions.
8. Loading/unloading allowances will not apply in connection with shipments moving under Volume Pricing Quotes, nor apply in connection with any price quotes, published general tariff, or Specific Account Pricing that is applicable in connection with a request for expedited time specific transportation service.

**Section 4: Pallet Allowances**

When allowances are based upon shipment palletization, the original bill of lading shall show the total number of pallets included in the shipment.

**Section 5: Allowances for Pickup/Delivery of Freight by Customer at ABF's Dock**

When the shipper elects to tender shipment(s) at ABF's origin dock or the consignee elects to accept delivery at ABF's destination dock, instead of the normal pickup or delivery service as provided in Item 750, ABF 111, the following will apply:

1. When a specific allowance is established for the party performing the service, the established allowance in cents per one hundred pounds of actual weight will apply.
2. At the option of ABF, the party performing the service may be paid an allowance for each service performed of \$0.50 per one hundred pounds of actual shipment weight, subject to a minimum of \$5.00 and a maximum of \$40.00 per shipment.

When the party performing the service is the payor of the freight charges, the allowance will be shown as an on-bill deduction from otherwise applicable freight charges. When the party performing the service is NOT the payor of the freight charges, ABF's local terminal personnel will issue a check in the amount of the allowance and send it to the party who performed the service.

Allowances paid under the provisions of this Section 5 will:

1. be in addition to all other applicable discounts and pallet allowances.
2. not be subject to Paragraph 4 of Section 1, or Paragraphs 2 and 3 of Section 3 of this item.
3. negate any allowances for the service it replaces.
4. remove charges for special services that are not performed
5. not reduce freight charges below the Absolute Minimum Charge.

**ARRIVAL NOTICE AND UNDELIVERED FREIGHT**

**ITEM 345**

**Arrival Notice:**

1. Actual tender of delivery at consignee's place constitutes the notice of the arrival of a shipment, except as provided in Paragraphs (2) and (3).
2. If the shipment is not actually tendered for delivery, notice of arrival will be given to the consignee no later than the next business day following the arrival of the shipment.
  - A. The notice will normally be given by telephone. The notice, however transmitted, will specify the point of origin, the consignor, and the commodity and weight of shipment.
  - B. If mailed, the notice will be deemed to have been received by the addressee at 8:00 a.m. on the first business day after it was mailed.
3. For shipments consigned to private residences, as defined in Item 751, all notice of arrival shall be given in the manner described in Paragraph (2), unless prior delivery arrangements have been noted on the bill of lading by the consignor.

**Undelivered Freight:**

If ABF cannot deliver the freight through no fault of its own, the shipment will be subject to applicable storage or detention charges.

**BILLING - NON-STANDARD**

**ITEM 355**

When specifically requested by a party to the shipment transaction (requesting party) to change consignor and/or consignee names and/or locations or to suppress disclosure of such information, ABF will make a diligent effort to perform the following non-standard billing service:

1. ABF will accept the shipment when tendered by the party in possession of the shipment.
2. The document on which the shipment is tendered, whether issued by ABF, the consignor or other party tendering the shipment will be used only to acknowledge receipt of the freight and will not be considered a bill of lading. The receipt will only show information about the payor of the freight charges, the consignee and consignee's location as requested by the payor or requesting party.
3. ABF will issue a bill of lading for the complete transportation of the shipment or execute the bill of lading if issued by the requesting party. In either case, the bill of lading must contain all information required by law and all information required by ABF to perform normal shipment transportation services and to calculate applicable freight charges.
4. ABF will make delivery to the consignee on a delivery receipt that shows only information about the shipper (consignor), TPB or party paying the freight charges as requested by the payor or requesting party.
5. The request for this service must be made sufficiently in advance to permit performance of the above described functions.
6. ABF will attempt to perform this service but will bear no responsibility or liability for inadvertent disclosure or incorrect delivery.
7. In addition to all otherwise applicable charges, including but not limited to the charge for Marking or Tagging as provided in Item 580, ABF 111 Series, a flat charge of \$61.30 per shipment per trailer will apply for the service provided in this item.

**BILLS OF LADING, FREIGHT BILLS AND STATEMENTS OF CHARGES  
(Addition to NMF 100, Item 360)**

**ITEM 360**

**Section 1(f).** When the payor of freight charges requests any of the following as a prerequisite to payment, a charge of \$9.15 for each document or copy will apply.

1. The return of any part of bill of lading sets or copies thereof, other than the one shipper furnished copy. When as a prerequisite to payment, the shipper furnished copy of the bill of lading is to be returned, it must be clearly and prominently marked by the shipper with specific instructions directing its return with the freight bill.
2. Copies of freight bills or statements of transportation charges in excess of the number specified in Section 1 (e).
3. The preparation by ABF of any forms requiring itemization, listing or description of single or multiple freight bills, for submitting with freight bills or statements of charges will be subject to a charge of \$0.77 per line of itemization, listing or description (or portion thereof) subject to a minimum charge of \$9.15 per page, per copy.
4. Any form or copies of forms, other than those described in Section 1 (f) (1) or Section 1 (f) (2), to be submitted with freight bills or statements of charges.
5. Any information not shown on the shipping order at time of shipment be shown on freight bills or statements of charges.

When payor requests proof of delivery be furnished in any form, ABF does not obligate itself to perform such service, but agrees to make a diligent effort to perform the service at no additional charge for occasional requests with reasonable frequency.

The charges above will not apply to **Bank Payment Plans** when documentation is limited to deposit ticket(s) supplied by the bank or to **Sight Draft Plans** when documentation is limited to sight drafts which do not require ABF to provide information pertaining to the rating of the shipment(s) on the sight draft.

Also, charges will not apply for either plan when documentation is limited to supporting freight bill(s) and statement(s) of charges not in excess of the number set forth in Section 1 (e), or the return of a copy of the bill of lading furnished by shipper.

The provisions set forth in Section 1(e) and Section 1(f) will not apply to shipments moving on United States Government Bills of Lading.

**BILLS OF LADING, FREIGHT BILLS AND STATEMENTS OF CHARGES  
(Exception to Section 2(a) of NMF 100, Item 360)**

**ITEM 360-2**

**Section 2(a).** The name and address of only one consignor and one consignee and only one destination shall appear on a bill of lading. Bills of lading for shipments consigned "To Order" at one point, with instructions to notify the consignee at another point, will be permitted only when both points are adjacent or within the same commercial zone. When a shipment is consigned to a point of which there are two or more of the same name in the same state, the name of the county must be shown.

**BILL OF LADING - AUTHORIZED****ITEM 361**

Unless otherwise specifically provided in this tariff, in tariffs governed by this tariff, or in a separate written agreement signed by authorized representatives of the Customer and ABF, property received for transportation by ABF requires all parties to the transaction to accept and use the bills of lading as set forth in paragraph 1 of this item and honor the following conditions:

1. **Authorized Bills of Lading.** The appropriate Canadian Provincial Bill of Lading will apply to shipments received for transportation by the originating carrier at a point in Canada. The bill of lading provisions, including the terms and conditions therein, found in the National Motor Freight Classification (NMFC), as amended, will apply to any other shipment received for transportation by ABF.

Notations on the receipt, manifest, bill of lading, or any shipping document with regard to rates, charges or commodity classification will be considered for information purposes but will neither remove nor modify applicable actual rates, charges or commodity classifications in ABF tariffs or written agreements.

2. **Authorized Signatures.** ABF's President, Senior Vice President – Yield Management & Strategic Development and Director-Pricing are the only representatives or employees authorized to sign agreement(s) on behalf of ABF, allowing use of bills of lading other than the appropriate uniform bill of lading specified in paragraph 1 of this item. No other employee or representative of ABF, including but not limited to ABF drivers, is authorized to vary or modify bill of lading terms and conditions.
3. **Bills of Lading Signed by ABF Driver.** Bills of lading signed by an ABF driver or other employee, not named in Paragraph 2 above, may only be used to acknowledge receipt of the freight and identify the entity for delivery. Such bills of lading shall not be construed as a contract for the carriage of freight and under no circumstances shall ABF be bound to the terms and conditions set forth therein.

**BILLS OF LADING - CORRECTED****ITEM 362****1. Change in Bill of Lading or Payor of Freight Charges**

Corrections to bills of lading and/or other written instructions requiring a change in the original bill of lading, including, but not limited to, (a) a change in the paying party, (b) a change in the billing address, (c) the addition of previously omitted information, (d) to change the collection status from "collect" to "prepaid" or from "prepaid" to "collect" or (e) the addition, change, or deletion of a "third party billing" or "send freight bill to" party may be permitted, at the sole discretion of ABF subject to the following conditions:

- A. A charge of \$20.80 per change will be added to the freight bill for each change in the bill of lading.
- B. A change in collection status or paying party will not be allowed after payment has been received on the basis of the original bill of lading.
- C. ABF must receive written request for change in the collection status or paying party within a period of 30 days from date of the initial bill of lading.
- D. The original and new debtor must have established credit with ABF.
- E. When the party requesting change in the collection status or paying party is shown as shipper or the paying party on the original bill of lading, they must guarantee, in writing, immediate payment of the applicable freight charges (and any additional charges incurred by ABF) should the new debtor fail to pay within the prescribed Surface Transportation Board credit guidelines. The consignee may request a revision to become the paying party, although they are not designated as the paying party on the original bill of lading, provided ABF is satisfied that the party making the request has the authority to do so. The consignee will also be subject to any additional applicable charges as a result of their request.
- F. Section 7 of the corrected bill of lading must not be executed.

**2. Change in Description or Weight**

Changes in description or weight will be permitted only upon presentation of satisfactory documentation (e.g., original invoice and descriptive literature) acceptable to ABF, that the original bill of lading was in error. Charges shown in 1(A) will apply.

**DETERMINING EFFECTIVE PRICING PROVISIONS**

**ITEM 382**

When an item is amended, the application of pricing provisions is governed by the issue and effective date shown. When two or more revisions of an item cover the same time period the version with the latest issue date supersedes earlier versions.

**CAPACITY LOADS - MINIMUM CHARGE**

**ITEM 390**

Provisions of this item will not apply in connection with shipments subject to class rate tariffs listed in Item 130 herein. Further, the provisions of this item have no application when the otherwise applicable charge is greater than the minimum charge provided herein.

The terms “occupies the full visible capacity,” “loaded to capacity” or “capacity load” refer to the extent each vehicle is loaded and can mean either:

- A. That quantity of freight which, in the manner loaded, so fills a vehicle that no additional article in the shipping form tendered identical in size to the largest article in the shipment can be loaded in or on the vehicle;
- OR:
- B. That maximum quantity of freight that can be legally loaded in or on a vehicle due to weight limitations.

1. Shipments subject to Class or Class and Commodity rates.

When any shipment occupies the full visible capacity of a vehicle, the minimum charge for that quantity of freight loaded in or on each vehicle (loaded to capacity) shall be equal to the charge for 40,000 pounds at the applicable undiscounted class 50 rate.

When a shipment is tendered that cannot be loaded in one vehicle, the following will apply:

Each vehicle required to transport the shipment, except one, shall be loaded to capacity and subject to the minimum charge as provided above. The vehicle containing less than a capacity load will be considered overflow and rated as a separate shipment when the minimum is applied to any capacity loaded vehicle in the shipment.

For the purpose of determining application of the minimum charge, the total freight charges will be allocated to each vehicle proportionate to the weight (of total shipment) contained therein.

2. Shipments subject solely to Commodity rates.

When any shipment subject to commodity rates is tendered to ABF and occupies the full visible capacity of a vehicle, such shipment shall be subject to a minimum charge per vehicle for that quantity of freight loaded in or on each vehicle (loaded to capacity) based on the applicable undiscounted Truckload or Volume rate at the minimum weight provided, if applicable. (Subject to Item 645 herein)

However, when a shipment is tendered that cannot be loaded in one vehicle, the freight loaded in each vehicle required to transport the shipment, shall be considered a separate shipment and so rated.

**Additional Considerations:**

On request of the shipper, ABF will make every effort to furnish the largest available trailer(s). The shipper will have the right to refuse the trailer offered, but once loading has begun, provisions of this item will apply.

On shipments which move via two or more carriers, the minimum charge provided in this item will be based on the vehicle furnished by the originating carrier, and will apply to the continuous through movement.

The originating carrier shall indicate on the bill of lading and/or freight bill, the number of vehicle(s) loaded to capacity, used by the originating carrier to transport the shipment, and shall also indicate if an additional vehicle carrying less than capacity load was furnished. In the event an additional vehicle was furnished, the originating carrier shall indicate the weight of the portion of the shipment loaded into such vehicle.

**CAPACITY LOADS - MINIMUM CHARGE**

**ITEM 390-1**

Provisions of this item apply only in connection with shipments subject to class rate tariffs listed in Item 130 herein. Further, the provisions of this item have no application in any case where the otherwise applicable charge is greater than the minimum charge provided herein.

The terms “occupies the full visible capacity,” “loaded to capacity,” or “capacity load” refer to the extent each doubles trailer is loaded and can mean either:

- A. That quantity of freight which, in the manner loaded, so fills a vehicle that no additional article in the shipping form tendered identical in size to the largest article in the shipment can be loaded in or on the doubles trailer (this will apply only when the shipment occupies not less than 20 linear feet of trailer space);
- OR:
- B. That maximum quantity of freight that can be legally loaded in or on a doubles trailer due to weight limitations.

When any shipment is tendered to carrier in sufficient quantity to occupy the full visible capacity of one or more doubles trailers, the minimum charge for each segment of the shipment that would fill a doubles trailer to capacity shall be equal to the charge for 20,000 pounds at the applicable class 50 rate, less any applicable discount. This minimum charge shall apply in all cases, even when the shipment is tendered to ABF on equipment other than doubles trailers.

When a shipment is tendered that cannot be loaded in one doubles trailer the following will apply:

Each segment of the shipment that would require the capacity of a doubles trailer, except one, shall be subject to the minimum charge as provided above. The one segment of the shipment requiring less than the capacity of a doubles trailer, if any, shall be considered as an overflow and rated as a separate shipment when the minimum is applied to any capacity loaded doubles trailer in the shipment.

For the purpose of determining application of the minimum charge, the total freight charges will be allocated to each doubles trailer proportionate to the weight of the total shipment contained therein.

**Additional Considerations:**

On shipments which move via two or more carriers, the minimum charge provided in this item will be based on the doubles trailer furnished by the originating carrier, and will apply to the continuous through movement.

The originating carrier shall indicate on the bill of lading and/or freight bill, the number of doubles trailers loaded to capacity, used by the originating carrier to transport the shipment, and shall also indicate if an additional doubles trailer carrying less than capacity load was furnished. In the event an additional doubles trailer was furnished, the originating carrier shall indicate the weight of the portion of the shipment loaded into such doubles trailer.

**CHASSIS - OBTAINING OF**

**ITEM 418**

When it becomes necessary for ABF, at its sole option, to obtain a chassis for the movement of a water or rail container at a location site other than at the place where the container is located, a charge of \$181.04 will be assessed for each chassis obtained. This charge will be in addition to all other applicable charges incidental to the movement of containers.

**CLASSIFICATION OF ARTICLES**

**ITEM 420**

1. Correction of article description or classification errors caused by incorrect description(s) on the original or corrected bill of lading supplied by the shipper will be subject to a \$20.80 reclassification fee per freight bill corrected when such correction causes an increase or reduction of \$15.00 or more in the net freight charges. Such charge will be added to the freight bill. However, when the weight adjustment fee provided in Item 992 is assessed, the reclassification fee will not apply.
2. Where the NMF 100 Series publishes a "O" rating for a commodity, or a "not taken" provision, and ABF inadvertently handles the shipment, the applicable rating shall be 500.
3. Subject to Item 565 herein, classification or rating provisions in the NMF 100 Series requiring a notation or statement of actual or released value are applicable only when such valuations are stated on the shipping order or bill of lading by shipper at time of shipment. Failure by the shipper to notate value, or the applicable NMF Item and sub number on the shipping order or bill of lading will cause ABF to assess the otherwise applicable class rating not dependent on valuation. If none exists, ABF will assess the lowest released value and rating, or the highest actual value and rating.

Carrier will honor corrected bills of lading upon receipt of acceptable proof of actual value. Corrected bills of lading will not be accepted nor will freight charges be adjusted on released value shipments.

**CLASSIFICATION OF ARTICLES - HAZARDOUS**

**ITEM 420-1**

Empty or used packaging for shipping hazardous material or hazardous substance (exception to NMF 100 series).

1. Used Packaging, partially full or empty, for shipping Hazardous Material or Hazardous Substance will be subject to the class provided in the NMF 100 for the commodity represented by the residue last contained in such packaging if higher than the class for the packaging, unless Shipper certifies on the original bill of lading at time of shipment that such packaging is properly cleaned and purged of any hazardous residue or vapors.
2. The shipper shall be charged for all costs and damages, direct or indirect, resulting from the release, for any reason, of any undisclosed hazardous material or any undisclosed hazardous substances contained in used packaging tendered by shipper as being "empty."

In addition, the shipper shall be charged \$38.75 straight time and/or \$58.15 time and one-half for each labor hour, or fraction thereof, lost by ABF because its facility is closed as a result of any release of such undisclosed hazardous material or hazardous substance.

**CLASSIFICATION BY ANALOGY**

**ITEM 421**

The commodity rates made subject to this tariff apply only on specifically described articles in such tariffs and do not apply on analogous articles.

**CLASSIFICATION OF COMBINED ARTICLES**

**ITEM 422**

When not specifically classified in the governing classification or specifically described in this tariff, articles which have been combined or attached to each other will be charged for at the rate provided for the highest rated article of the combination. On a shipment subject to volume rates, the minimum weight will be the highest minimum weight provided for any article in the combination.

When articles have been combined with or attached to vehicles, motor, or vehicles other than self-propelled, they will be rated as a combination article unless the combined article is specifically provided for in NMF 100 or in tariffs making reference to this tariff.

**PRESENTATION OF FREIGHT BILLS AND COLLECTION OF CHARGES**

**ITEM 427**

**1. Presentation or Mailing of Freight Bills.**

In addition, payment terms will be changed from prepaid to collect or from collect to prepaid, as necessary, to ensure that the shipment is Prepaid, if the shipper and SFB (formerly TP) are affiliated, or Collect, if the consignee and SFB (formerly TP) are affiliated.

3. TPB shipments will be accepted only when the consignor has established credit with ABF and guarantees to pay all lawfully accrued charges if the third party fails to do so within the time allowed under the credit regulations of the Surface Transportation Board.

The shipment will also be assessed the applicable redelivery charge as provided in ABF's tariffs in addition to all other applicable charges.
4. Adding COD status to a non-COD shipment or increasing the amount of COD for an existing COD shipment. ABF will attempt to perform this service when conditions allow. However, based on its sole judgment, ABF may decline to perform this change. ABF accepts no liability for its failure to make such change. When the request for exclusive use of vehicle or doubles trailer is made by the Customer after shipment has been receipted for and is in possession of the carrier, ABF will, if possible, intercept the shipment and convert it to exclusive use of vehicle or doubles trailer service over as much of the route as possible. The party making the request must confirm in writing and must guarantee charges. Such written verification will be preserved by ABF and considered as part of the bill of lading. Charges will be assessed as provided in Paragraph 6 between the point of initial origin and point of destination.

The provisions of this item will not apply in connection with Item 900 (Stopoffs).

**EXPORT OR IMPORT SHIPMENT REQUIREMENTS**

**ITEM 550**

Shipments must be accompanied by all papers necessary to comply with the requirements of governmental authorities.

Shipper must furnish all invoices, documentary evidence and declarations, including duties, fees and other charges which may be imposed or assessed against the property transported. ABF will in no way be responsible for delays to the goods transported nor for goods held by any government for any reason whatsoever. Where all necessary requirements of such authorities are not complied with, and through no fault of ABF, additional expenses and/or fines are incurred to comply with such requirements, those expenses may be advanced by ABF and shall become a charge to the goods. Delivery will not be made until such charges are paid or guaranteed by shipper or consignee.

When shipments must be held by ABF pending compliance of customs regulations by the shipper or his representative, a charge will be made for the service required on the part of ABF as follows:

**Unloading, handling and loading:** \$2.43 per 100 pounds with a minimum charge of \$13.86, per shipment per trailer

**Storage:** \$1.86 cents per 100 pounds or fraction thereof per day subject to a minimum charge of \$9.38 per shipment per calendar day, but in no case less than \$33.03 per shipment. Fractions of a day will be considered as one day, and fractions of 100 pounds will be considered as 100 pounds.

In computing storage charges, time will begin 48 hours after 5:00 p.m. on the day rejection of entry is received by ABF from the Customs broker, deemed to be acting as the agent of the shipper and/or consignee.

When shipments are delayed at the border, through no fault of ABF, by either U.S. Customs, Canadian Customs or other regulatory agencies, the following fees shall apply:

**Delay:** No charge for the first 15 minute delay. \$30.86 for each succeeding 15 minute delay or fraction thereof.

**PROPERLY IDENTIFIED SHIPMENTS**

**ITEM 555**

Shipments of articles which by D.O.T. regulations have co-loading restrictions (i.e., food, cosmetics, etc.), when tendered to ABF, must be properly and clearly identified by the shipper on the bill of lading at time of shipment that the shipment contains such articles. If the shipper fails to so identify the shipment, ABF will not be liable for any loss or damage.

**EXTRA LABOR - LOADING OR UNLOADING**

**ITEM 560**

When requested by Customer, extra labor will be furnished by ABF for loading or unloading. At each location where extra labor is used, the charge will be as follows:

Days-Hours	Per man per hour or fraction thereof	Minimum charge per man
Monday through Friday (Except Legal Holidays) 8:00 a.m. to 5:00 p.m.	\$ 90.90	\$ 90.90
Monday through Friday (Except Legal Holidays) 5:00 p.m. to 8:00 a.m.	150.80	150.80
Saturdays (Except Legal Holidays)	150.80	441.40

Time shall be computed from the time the extra labor arrives at the place of pickup or delivery until loading or unloading is completed. The charge will be in addition to all other charges and will be assessed against the Customer requesting the assistance. Extra labor will not be furnished unless requested by the Customer.

The provisions of this item do not *obligate* ABF to furnish extra labor. The provisions of this item do not apply on Sundays or holidays. On such days, apply the charges provided in Item 754.

**FORKLIFT SERVICE**

**ITEM 560-1**

On shipments that require a forklift service and the Customer does not furnish this service, ABF will endeavor to arrange for forklift service and will charge the Customer requiring the service \$89.15 per half hour or fraction thereof for each forklift used, subject to a minimum charge of \$129.70 per shipment per trailer. Charges shall be computed from the start of the actual use of forklift equipment until the actual use of forklift equipment is terminated.

When forklift service is used on import or export traffic at wharves or docks, the provisions of this item shall apply regardless of the weight or size of the articles. On export shipments, charges which accrue under this item will be collected by the delivering carrier from the consignor.

**ROUNDING OF FRACTIONS**

**ITEM 564**

In the event that calculations are required which produce fractions, the number shall be rounded to the nearest whole cent. If less than .5, reduce to the next lower cent. If .5 or more, increase to the next higher cent.

For rating purposes, shipment weights shown in fractions of a pound will be rounded to the nearest whole pound. If less than .5, reduce to the next lower pound. If .5 or more, increase to the next higher pound.

**FREIGHT, ALL KINDS (FAK) AND EXCEPTION RATINGS - APPLICATION**

**ITEM 565**

When tariffs governed by this tariff provide for the application of the same class, rating or rate(s) on commodities generally or commodity groupings, by use of such descriptions as "Freight, All Kinds," "FAK," "Tiered FAK," "Commodities Various," "All Commodities" or words of similar meaning (hereinafter referred to in this item as "FAK"), the conditions outlined below shall apply:

1. When one or more released or actual value provisions are published in NMF 100 Series or ABF 100 Series to apply for any specific commodity tendered for transportation, the lowest released value or the lowest actual value provided therein will apply in all cases.
2. FAK provisions take precedence over other published provisions for the Customer or third party payor, subject to Item 765 of this tariff.
3. When specific reference is made to this paragraph, FAK provisions shall be restricted to apply only in connection with single shipments effectively occupying (see Item 110, Paragraph 14) not more than 1500 cubic feet of a vehicle or doubles trailer.
4. The shipper is required to correctly identify on the bill of lading at the time of shipment the specific commodity(s) tendered for transportation, including those subject to FAK provisions.

In connection with shipments where the shipper fails to correctly identify the specific commodity(s):

- A. The FAK provisions become null and void and otherwise applicable provisions shall apply. Further, ABF is not obligated to rate or transport the shipment until the shipper issues a corrected bill of lading correctly identifying the commodity(s).
  - B. In the event the shipment is inadvertently rated and transported without the commodity(s) being correctly identified, the carrier is relieved of any liability for damage to or destruction of commodity(s) resulting from the loading of the product(s) or commodity(s) on the same trailer with other freight that is either incompatible with or prohibited by applicable federal, state or local laws and regulations from being co-loaded on the same trailer with the commodity(s) moving under FAK provisions.
5. FAK does not encompass those commodities in the NMF 100 Series with a "not taken" or "0" provision or rating.

**HANDLING FREIGHT AT POSITIONS NOT IMMEDIATELY ADJACENT TO VEHICLE      ITEM 566**

When requested by the Customer, and ABF's operating conditions permit, ABF may move shipments from or to positions beyond the immediately adjacent loading or unloading positions available to carrier's vehicle.

The provisions of this item include service at Shopping Malls when the actual pickup or delivery site within the mall complex is not immediately adjacent to the loading or unloading positions available to carrier's vehicle.

Service under this item will be provided to floors above or below the level accessible to ABF's vehicle only when elevator or escalator service is available and labor, when necessary to operate same, is provided without cost to ABF.

**Charges for points other than the Borough of Manhattan, NY:**

Service provided under this item will be assessed a charge of \$6.95 per 100 pounds, but not less than \$67.60 per shipment per trailer, nor more than \$795.50 per shipment per trailer. When shipments are accorded split pickup, split delivery or stopped in transit for partial loading or unloading, the minimum and maximum charges will apply to each stop separately wherever the service is performed.

**Charges for points in the Borough of Manhattan, NY (Zips 10001-10299):**

\$18.15 per 100 pounds, but not less than \$95.95 per shipment per trailer, nor more than \$862.65 per shipment per trailer.

The charges provided in this item will be in addition to all other applicable charges and will be assessed against the payor of the freight charges. If the payor of the freight charges is unable or unwilling to pay for this service, the charges will be assessed against the party requesting the service.

For shipments moving on government bills of lading, the charges will be collected from the U.S. Government.

**INDEMNIFICATION**

**ITEM 568**

For the conditions of this item only, the term "Customer" shall include third party payor, in addition to the consignor (shipper) and consignee.

Customer and ABF, to the extent of their negligence, shall indemnify, defend and hold the other party harmless from and against all direct and valid losses, damages, liabilities, fines, actions and claims for injury to persons and damage to property (including other shipper's cargo, but excluding Customer's cargo), to the extent caused by their negligent acts or omissions in connection with their performance in each instance of transportation, including all direct losses or damages to any property or injury to persons from the party's failure to comply with any applicable laws and regulations concerning the transportation of hazardous materials. Customer shall indemnify ABF under this provision in the event that Customer tenders to ABF any prohibited item for shipment. The party claiming indemnification must provide the indemnifying party with written notice of its indemnification claim in time to contest the determination of any liability and prior to any admittance of any liability, damages, settlement, compromise or discharge of any matter by the party claiming indemnification, and allow reasonable access to any information pertaining to the claim. The indemnifying party or its insurer(s) shall have the right to defend or resolve any claim which may be brought by a third party which a party requests indemnification.

**IMPRACTICABLE OPERATIONS**

**ITEM 570**

Pickup or delivery services will not be performed by ABF at any site for which it is impracticable to operate vehicles because of:

1. The condition of roads, streets, driveways, alleys or approaches thereto;
2. Inadequate loading or unloading facilities;
3. Strikes, labor disputes, riots, acts of nature, the public enemy, the authority of law, the existence of violence, disturbances tending to create reasonable apprehension of danger to persons or property, or any acts beyond the control of ABF.

**LIQUOR SHIPMENTS**

**ITEM 577**

Shipments of any spirituous, vinous, malted or other fermented liquor, or any compound containing spirituous, vinous, malted or other fermented liquor, fit for use as beverage purposes, will not be accepted for transportation, unless the packages in such shipments are accompanied by a copy of the bill of lading or other document showing the name of the consignee, the nature of its contents and the quantity contained therein (see Title 18, U.S.C., Section 1263, as amended September 26, 1968). ABF will not knowingly deliver or cause to be delivered such shipments to any person other than the person to whom it has been consigned unless upon written order in each instance of the bona fide consignee; or to any fictitious person or to any person under a fictitious name (see Title 18, U.S.C., Section 1264, as revised June 25, 1948).

**LOADING BY CONSIGNOR-UNLOADING BY CONSIGNEE**

**ITEM 578**

Rates subject to provisions that require the Customer to load or unload the shipment are subject to the following additional provisions:

1. At time of shipment, a notation must be made on the bill of lading and the shipping order by the consignor, that consignor is to load and/or consignee is to unload the shipment. This requirement will not apply when entire shipment consists of freight in a single container, or freight tendered on pallets or platforms weighing at least 500 pounds or more (loading required by consignor and unloading required by consignee per NMF 100, Item 568).
2. The complete loading and/or unloading of the freight, including the count thereof, must be performed by the Customer at their expense, without requiring any assistance from ABF. ABF's employee and power unit are to be released while loading and/or unloading is performed.
3. The complete loading service includes the loading of the freight on ABF's vehicle and the stowing and arranging thereof. Any temporary stowing components required to protect and make shipments secure for transportation must be furnished by the consignor. The complete unloading service means that the consignee must remove the freight from the position in which it is has been transported.
4. On mixed shipments, when any portion of the freight is required to be loaded (or unloaded) by the Customer as a condition precedent to the application of the rate, the entire shipment must be loaded (or unloaded) by the Customer.
5. In the event the shipment is stopped off for partial loading (or partial unloading), the party or parties tendering or receiving any portion of the shipment will be subject to the same loading (or unloading) requirements.
6. If the Customer refuses to perform the loading (or unloading), the rate will not apply and rates otherwise published will be assessed.

Notwithstanding the above, if requested, ABF will perform loading and/or unloading services subject to the charges below. The payor of the linehaul freight charges shall be liable for the charges for these services. When, under these conditions, ABF performs loading and/or unloading service(s), applicable rates shall be determined as though the Customer had performed such service(s).

Equipment Rate (Note 1)	Linear Foot Rate (Note 2)		Charge for Loading	Charge for Unloading
	Not to Exceed:	Greater Than:		
.50 Pup	0 Feet	14 Feet	\$ 97.97	\$ 97.97
.75 Pup	14 Feet	21 Feet	138.79	138.79
1.00 Pup	21 Feet	28 Feet	179.60	179.60
1.25 Pups			228.59	228.59
1 Van			342.88	342.88

Charges for loading/unloading equipment rates greater than 1.25 pups will be the combined charges of the equipment types, as defined in Item 597-1 herein, needed to achieve the equipment rate. (The charge for two pups shall be two times the charge for loading/unloading a pup, the charge for 1.50 pups will be the charge for loading/unloading a pup plus the charge for loading/unloading 0.50 pups, etc.)

Note 1 – Applies only in connection with shipments moving on equipment rates.

Note 2 – Applies only in connection with shipments moving on linear foot rates.

- 7. Any expense incurred by ABF for loading or unloading service, other than spotting equipment, will be assessed against the payor of the freight charges.

**MARKING OR TAGGING FREIGHT - CHANGING MARKINGS OR TAGS**

**ITEM 580**

The provisions of NMF 100, Item 580, will apply; however, at the request of the Customer, ABF shall change or alter the markings or tags on any package or pieces of freight subject to a charge of \$3.25 per package or piece of freight, but no less than \$48.05 per shipment per trailer.

All charges accruing under the provisions of this item must be paid by the party requesting the service or guaranteed to the satisfaction of ABF before the service will be performed.

**MAXIMUM WEIGHTS - TL OR VOL**

**ITEM 596**

TL or VOL provisions subject to a maximum weight restriction will apply only to the extent total weight of the shipment does not exceed the maximum weight specified. That portion of a shipment in excess of a stated maximum weight shall be rated as a separate shipment.

**MAXIMUM WEIGHTS - PUP OR DOUBLES TRAILER**

**ITEM 597**

Rates or charges stated in units per pup or doubles trailer shall be subject to a maximum weight of 24,000 pounds unless further restricted by weight limitations of state or other regulatory bodies.

The charge for that weight in excess of 24,000 pounds on the same pup or doubles trailer, if any, will be computed at the ratio the applicable pup or doubles trailer charge bears to 24,000 pounds.

EXAMPLE: Shipment weighs 26,000 pounds and is loaded on one pup  
Pup rate is \$1,187.00  
Excess weight is 2,000 (26,000 less 24,000)  
Excess rate is \$4.95 per cwt (1187/240 cwt = 495)

The shipment would be rated:

First	24,000	@ pup rate	\$1,187.00
Excess	2,000	@ 495 cwt	99.00
Total	26,000		\$1,286.00

**EQUIPMENT RATES - MAXIMUM SHIPMENT SIZE**  
**(Applicable only where specific reference is made hereto)**

**ITEM 597-1**

Rates or charges stated in units per type of equipment as defined below shall apply only in connection with shipments not exceeding *any* of the forms of measurement (Weight, Linear Feet) shown.

Equipment	Weight (Pounds)	Linear Ft.
.50 PUP	12,000	14
.75 PUP	18,000	21
1.00 PUP	24,000	28
1.25 PUPS	30,000	35
1.50 PUPS	36,000	42
1.75 PUPS	42,000	49
2.00 PUPS	48,000	56

**MINIMUM CHARGE - HOUSEHOLD GOODS OR PERSONAL EFFECTS****ITEM 610**

The minimum charge for an LTL shipment of household goods or personal effects, as described in NMFC Item 100240 through 100292, will be 500 pounds at the otherwise applicable Specific Account pricing, but not less than the otherwise applicable minimum charge published from initial origin to final destination. However, this item will not apply on shipments of military household goods or personal effects when moving on a government bill of lading or on a commercial bill of lading which clearly indicates the underlying government bill of lading number.

**DENSITY MINIMUM CHARGE****ITEM 611-1**

Shipments meeting the conditions of this item shall be subject to a Minimum Charge, based upon a calculated weight and the applicable rate.

The calculated weight shall be determined by multiplying the cubic capacity of the shipment by six (6) pounds for each cubic foot or portion thereof.

The applicable rate shall be determined from otherwise applicable specific account pricing provisions. However, shipments subject to NMF class (not exception) ratings or multiple rates (of any type, including but not limited to multiple class exceptions that would otherwise be applicable to the shipment) shall be rated at the applicable Class 77.5 rate in lieu of the actual NMF classification or multiple rates.

On shipments subject to different percentage expressions by commodity, the highest applicable percentage expression shall be used in determining the minimum net charges under this rule.

**Conditions and Definitions:**

1. Provisions of this item apply only in connection with shipments which weigh less than six (6) pounds per cubic foot (actual weight) and which require more than 750 cubic feet of space.
2. The cubic capacity of the shipment shall be determined in accordance with Item 110, Paragraph 14 herein.
3. When this item has application, ABF's freight bill will indicate both the actual weight and the calculated weight used to calculate the minimum charge.
4. The provisions of this item are not applicable in connection with:
  - A. Shipments subject to "EXCLUSIVE USE OF VEHICLE" provisions herein.
  - B. Any portion of shipment subject to "Capacity Load" provisions herein. However, this item will apply for that segment of the shipment that is considered overflow and rated as a separate shipment.
  - C. Any portion of shipments subject to rates stated in units per mile or per piece of linehaul equipment. However, this item will apply for that segment of the shipment that is considered overflow and rated as a separate shipment.

**MINIMUM CHARGE ON CLASS A OR B EXPLOSIVES**

**ITEM 612**

The minimum charge for a shipment containing Class A or B explosives as described in American Trucking Associations, Inc., Agent, Hazardous Materials Tariff STB ATA 111, will be the charge for 7,500 pounds at the applicable class scale L5C rate, applying to the highest rated Class A or other than Class A explosive in the shipment.

**MINIMUM CHARGE - ABSOLUTE**

**ITEM 615**

The linehaul charge for any shipment shall be the applicable charge(s) determined by use of such provisions subject to a minimum charge per shipment per trailer equal to the greater of:

1. The charge produced by the applicable linehaul rate after adjustments for discounts and any other adjustment(s),
2. The applicable linehaul minimum charge after adjustments for discounts and any other adjustment(s), or
3. The stated specific account absolute minimum charge. If no specific account or lane specific absolute minimum charge exists, apply the following:

**Charges for lanes other than between the Continental U.S. & Canada:**

- A. \$104.95 for shipments weighing less than 150 pounds
- B. \$121.95 for shipments weighing 150 pounds or more

**Charges for lanes between the continental United States and Canada**

- A. \$122.95 for shipments weighing less than 150 pounds
- B. \$137.95 for shipments weighing 150 pounds or more

No adjustments for discounts or any other adjustment(s) except for allowances will be applicable in connection with the absolute minimum charge.

Minimum charges are exclusive of the following charges:

- A. arbitraries,
- B. pickup and/or delivery,
- C. special service charge(s), and
- D. any other charge(s) stated separate from the line-haul transportation charge(s).

**MIXED SHIPMENTS - LTL (Exception to NMF 100, Item 640)**

**ITEM 640**

When a number of differently described articles are shipped as a mixed shipment, the charges on the shipment will be determined as follows:

1. Each article packaged separately and listed separately (on the bill of lading) by weight will be rated using its actual weight and applicable rate. Except, the total shipment weight will be used to satisfy any minimum weights. Any deficit weight will be rated at the lowest rate applicable to any article in the shipment.
2. When two or more different articles are in the same package, the applicable rate for the package will be the highest applicable for any article therein. All articles need not be specified if the highest rated article is shown with the following notation on the bill of lading: "and other articles rated same or lower" (RS or L).
3. When two or more different commodities, however packaged, are in the same shipment with only the total weight being shown, the applicable rate for the shipment will be per the class, rate or charge that is the highest for any article therein.
4. When packages are shipped in, or unitized on pallets, platforms or skids, provided the packages are properly described to allow for proper rating, the weight of the pallet, platform or skid will be charged at the lowest rate applied to any article in the shipment, if the weight of such device is separately shown on the bill of lading.

**MIXED SHIPMENTS - MAXIMUM PERCENTAGE OF MIXTURE  
(Exception to Sections 1, 2, and 3 of NMF 100, Item 640)**

**ITEM 642**

When rates are published in tariffs making reference to this tariff which provide for a maximum percentage as to the amount of a commodity or commodities that may be included in the mixed shipment, and a greater amount than the allowable percentage of such commodities is included in the shipment, the rates will apply on such restricted commodities, up to and including the allowable percentage. The excess is to be rated as a separate shipment (see Note 1).

When there is more than one commodity subject to a single maximum percentage restriction, the allowable percentage will consist of the lowest rated commodity or commodities necessary to make up such percentage.

When percentage limitations are separately provided on different commodities, rates will apply on each commodity up to and including the allowable percentage. Any excess weight of each commodity will be charged for as a separate shipment (see Note 1).

When on Volume shipments, the weight in excess of the allowable percentage may not be used to make up the Volume minimum weight. Any deficit in the minimum weight will be charged for at the mixed Volume rate.

The provisions of this item will not apply on mixed shipments of "Solutions or distilled water" per NMF 100, Item 59380, and "Administration sets," Item 59384. When there are mixed shipments of the articles contained herein, the articles will be rated per Section 8 of NMF 100, Item 640.

Note 1 - The rate to apply to the separate shipment will be based on the weight of the separate shipment at the applicable rate(s) for the commodity or commodities contained therein. The separate shipment is subject to a minimum charge if applicable.

**MIXED SHIPMENTS - TL OR VOLUME**

**ITEM 645**

When a number of differently described articles are shipped as a mixed shipment, the charges on the shipment will be determined as follows:

1. The rate to apply on each article will be the rate which would apply on that article if such article were tendered as a straight shipment, weighing the same as the aggregate weight of the mixed shipment.
2. The minimum weight for the entire shipment will be the highest minimum weight applicable in connection with any article in the shipment. Any deficit weight will be charged for at the same rate as that applying to the lowest rated article in the shipment.
3. When the total charge on the shipment is lower by considering the articles as if they were divided into two or more separate TL or volume shipments, the shipment will be rated accordingly.
4. When the total charge on the shipment is lower by applying the TL or volume rate and minimum weight, or actual weight, if greater, for one or more articles and the LTL rate and actual weight for the remainder, such charges will apply, subject to the following:

The LTL rates to be assessed are those which would apply if the LTL portions were considered as a separate shipment.

5. The weight of the portion assessed LTL rates may not be applied toward the TL or volume minimum weight.

Apply the straight TL or volume packing requirements.

Where different TL or volume rates and minimum weights are provided on the same articles included in a mixed TL or mixed volume shipment, the lowest charges that can be computed by the use of any such rate and its accompanying minimum weight for that article will be used to determine the charges for the entire shipment.

Note 1 - The provisions of this item do not apply on the following articles:

- A. Explosives, consisting of ammunition, explosive or incendiary, or gas or smoke or tear producing; Explosives, NOI; propellants, explosive; or fireworks: Class A or B (Item 64300 of NMF 100).
- B. Mixed shipments of articles where the weight of the shipment does not meet, or is not charged for, the minimum weight requirements set forth in Paragraph 2 of this item.

**OVER-DIMENSION FREIGHT**

**ITEM 670**

Shipments containing one or more articles that equal or exceed 14 feet in length will be subject to a charge of \$80.70 per shipment per trailer in addition to all other applicable charges.

The charge in this item will not apply on shipments that are subject to:

1. An Exclusive Use or Capacity Load minimum charge
2. Rates stated in units per type of equipment when the application of such rates requires the shipper to load and the consignee to unload.

**PACKING MATERIAL, DEBRIS, TRASH REMOVAL AND/OR DISPOSAL OF**

**ITEM 680**

When requested by the Customer, ABF at its sole discretion will make a diligent effort to remove and/or dispose of packing material, debris or trash associated with specific shipment(s) being delivered. In no case shall ABF be under obligation to perform such service.

It shall be the responsibility of the consignee to place such debris, packing material or trash on ABF's equipment at time of delivery.

A charge of \$34.02 for each 15 minutes or fraction thereof required to perform this service will be assessed against the party requesting the service.

In addition, any expenses incurred by ABF to satisfy fees or charges directly attributable to this service will be assessed against the party requesting the service. Upon request, evidence of payment of such fees or charges will be furnished by ABF.

The charges provided in this item will be in addition to all other lawful charges, and will be assessed against the payor of the freight charges. If the payor of the freight charges is unable or unwilling to pay for this service, the charges will be assessed against the party requesting the service.

This charge will be in addition to all other applicable charges.

**PERMITS, SPECIAL**

**ITEM 740**

All such charges shall be in addition to other charges provided in this tariff and shall be collected from the shipper or party requesting movement of the shipment, plus a service charge of \$158.77 per vehicle per permit for the securing of the special permits.

Carrier will advance all expenses to move these shipments and will furnish, upon request, evidence of payment to shipper or party requesting movement.

Such charges will be assessed against the payor of the freight charges and are in addition to applicable detention charges. If the payor of the freight charges is unable or unwilling to pay for this service, the charges will be assessed against the party requesting the service.

  - 2. The shipment is tendered to ABF on pallets and delivery is required in the same palletized manner in which the freight was tendered to ABF.

Loading or unloading service does not include furnishing by ABF of rigging or special loading or unloading equipment such as platform vehicles (other than two-wheeled hand trucks), winches, cranes, jacks, blocks or falls, chain falls or other special equipment used in hoisting, lowering, handling or placing freight in position. When such equipment is used in loading or unloading, the consignor or the consignee, as the case may be, shall furnish same and the necessary labor to operate such equipment at its expense, and shall also assume responsibility for safe loading or unloading, except ABF's employee may use hand trucks or four-wheeled hand carts and hand or electrically operated pallet jacks (non-riding type) when furnished by the consignor or consignee.

**6. LOADING BY CONSIGNOR OR UNLOADING BY CONSIGNEE:**

The consignor or consignee may elect to waive the loading or unloading of freight by ABF as provided in this item by performing at his own expense the loading or unloading of the shipment on or from ABF's vehicle.

**7. WAIVER OF DELIVERY RECEIPT:**

When consignor or owner has made written arrangements with ABF, freight consigned to construction sites (or other places where no representative of the consignee is present or available to receipt for the shipment) will be delivered and unloaded by ABF and left unattended at the place designated.

**8. MORE THAN ONE LOADING OR UNLOADING SITE:**

Upon request of the consignor or consignee, pickup or delivery service as defined in this item may be performed at more than one loading or unloading site within the continuous plant property or premises of the consignor or consignee requesting this service, provided the loading or unloading sites are not intersected by more than one public thoroughfare. A vehicle transfer charge of \$53.07 per shipment per trailer will be assessed for each transfer of the vehicle from one loading or unloading site to another.

**9. HEAVY OR BULKY FREIGHT-LOADING OR UNLOADING (Exception to NMF 100 Series, Item 568):** (See Note 3)

When freight (per package or piece) in a single container, or secured to pallets, platforms, or lift truck skids, or in any other authorized form of shipment:

- A. Weighs 500 pounds or less, ABF will perform the loading and/or unloading where a dock, platform, or ramp is directly accessible to ABF's vehicle, except as provided in Paragraph C. Regardless of weight, if there is no dock, platform or ramp provided, the Customer will be responsible for the loading or unloading. On request, the ABF driver will assist.
- B. Weighs 500 pounds or more, the Customer will perform the loading or unloading. On request, the ABF driver will assist.
- C. Regardless of weight, the Customer will be responsible for the loading or unloading when:
  - (1) Freight exceeds 22 feet in any dimension
  - (2) Freight exceeds 10 feet in its greatest dimension and exceeds 1 foot in any other dimension.
  - (3) Freight exceeds 8 feet in its greatest dimension, with any other dimension exceeding 2 feet.
  - (4) Freight exceeds 4 feet in any two dimensions.

Note 1 - Freight shall be deemed to be immediately adjacent to a space suitable for ABF to place its vehicle for loading or unloading if separated therefrom only by an intervening public sidewalk. If a parking space suitable for ABF to place its vehicle for loading or unloading is occupied or city ordinance prevents its use, the nearest available parking space may be used.

When two or more shipments are placed by the shipper as close as practicable to a parking space suitable for ABF to place its vehicle for loading, all such shipments will be considered as immediately adjacent thereto, even though the shipment or shipments that were closest to such parking space were picked up first by the same or different motor carrier.

When shipper assigns to two or more carriers designated spaces in its shipping room or loading platform where outgoing freight will be placed by the shipper for pickup by the designated carriers and all of such assigned spaces are as close as practicable to a parking space suitable for carrier to place its vehicle for loading, all such assigned and designated spaces will be considered immediately adjacent to such parking space.

Note 2 - The provisions of this paragraph will not allow for the opening of packages or unitized shipments, including shrink-wrapped or banded freight on pallets or skids.

Note 3 - Loading by definition in Paragraph 9 of this item includes stowing and counting of the freight in or on ABF's vehicle(s). Unloading by definition in Paragraph 9 of this item includes the counting and removing of the freight from the position in which it is transported in or on ABF's vehicle.

**PRIORITY OF PRICING--ORDER OF PRECEDENCE****ITEM 765**

Where different types of pricing could apply to the same shipment, the following order of precedence will apply:

1. TimeKeeper<sup>®</sup> (TK) (supersedes all other pricing). To the extent different time sensitive pricing could apply to a single shipment, the following order of precedence will apply:
  - A. TimeKeeper Quote ID
  - B. Specific Account Pricing published in ABF 610
  - C. General TimeKeeper pricing as outlined in ABF 610, Item 2000
2. Volume Price Quote (VPQ) (supersedes all other pricing except TK)
3. Paying party. When pricing is applicable for more than one party on a freight bill (e.g., Shipper, Consignee or Third Party), the pricing applicable for the payor of the freight charges will apply.
  - A. When the Third Party (TP or TPB) is Payor.
    - (1) Use the TP's applicable pricing when true third party conditions as provided in Item 429 of this tariff, or the following, exist.
      - (a) For prepaid shipments, if the TP and shipper are separate majority owned subsidiaries of the same parent company or the TP is a subsidiary of the shipper.
      - (b) For collect shipments, if the TP and consignee are separate majority owned subsidiaries of the same parent company or the TP is a subsidiary of the consignee.
    - (2) When there is no applicable pricing package for the TP payor, use the following:
      - (a) Prepaid shipments. Use the shipper's applicable pricing.
      - (b) Collect shipments. Use the consignee's applicable pricing. If none, use the shipper's applicable pricing.
    - (3) When the following conditions exist, TP pricing will only apply as provided in Paragraph 3(B) (prepaid) or 3(C) (collect), below:
      - (a) The TP and the shipper or consignee are the same company and are assigned the same account code number.
      - (b) The TP is the majority owner of the shipper or consignee.
  - B. When the Shipper is payor. Use shipper's applicable pricing. If none, and there is a shipper or majority owner of shipper "Send Freight Bill To Party" (SFB) location shown on the bill, use the SFB's applicable third party pricing.
  - C. When the Consignee is payor. Use the consignee's applicable pricing. If none,
    - (1) And there is a consignee or majority owner of consignee SFB location shown on the bill, use the SFB's applicable third party pricing.
    - (2) Use the shipper's applicable pricing, except as provided in "(1)" above.
  - D. When, in the applicable pricing package, there is more than one price that covers the shipment, the following order of precedence shall apply:
    - (1) Contract (supersedes tariff pricing).
      - (a) Provisions applicable to LTL shipments based on a price per pallet, per piece, or some other containerized unit, will take precedence over and will not alternate with other applicable LTL provisions. Non-containerized commodities in the same shipment will be rated using otherwise applicable LTL provisions.
      - (b) "Freight, All Kinds" provisions applicable to LTL shipments will take precedence over and will not alternate with other applicable LTL provisions.
      - (c) Apply lower of payor's LTL or TL pricing.

- (2) ABF Individual Tariffs filed in the ABF General Office or with the Surface Transportation Board (is superseded by contract pricing).
  - (a) Provisions applicable to LTL shipments based on a price per pallet, per piece, or some other containerized unit, will take precedence over and will not alternate with other applicable LTL provisions. Non-containerized commodities in the same shipment will be rated using otherwise applicable LTL provisions.
  - (b) "Freight, All Kinds" provisions applicable to LTL shipments will take precedence over and will not alternate with other applicable LTL provisions.
  - (c) Apply lower of payor's LTL or TL pricing.
- E. When the payor's pricing includes exceptions or non-application provisions, such exceptions or non-application provisions may not cause alternation to a non-payor's pricing. Instead, the payor's pricing, notwithstanding its inapplicability to a given shipment because of such exceptions, will serve as the payor's pricing package and prohibit use of non-payor pricing (the provisions of this sub paragraph will apply but are not limited as shown in the following examples):

Examples:

Pricing published to apply for a non-payor will not apply as an alternate to the application of the payor's pricing, when:

  - (1) Payor pricing is restricted by geographic area, but non-payor's pricing is not similarly restricted.
  - (2) Payor pricing has no discount on minimum charge, selected rate scales (minimum weights) or joint line restrictions, but the non-payors pricing is not similarly restricted.
  - (3) Payor pricing is made not applicable under Item 151 of the tariff, but the non-payor's pricing is exempt from one or more of the provisions of Item 151.
4. When an account performs services for which an allowance as defined in Item 315 herein may apply, such allowance will not be subject to the provisions of Paragraph 3, above, and will be in addition to otherwise applicable pricing. Allowances will not apply to shipments that are rated under TimeKeeper® or Volume Quotes referred to in Paragraphs 1 and 2 above.

**REFUND AND INCENTIVE REFUND DISCOUNTS-- APPLICATION OF**

Refund, Incentive Refund or other Off-Bill Discounts:

3. shall not be applicable on special service charges or fuel surcharge.
4. shall apply only when ABF receives all applicable freight charges within 30 days of:
  - A. billing date for shipments moving freight charges prepaid.
  - B. delivery date for shipments moving freight charges collect.
5. shall apply only to the ABF portion of revenue on joint-line traffic.

**PRECEDENCE (PRIORITY) OF RULES**

**ITEM 766**

Where a rule published in this tariff covers the same service as a rule published in the National Motor Freight Classification, NMF 100 Series, such rule published herein, to the extent of its application, will apply in lieu of the rule published in NMF 100 Series. Unless otherwise provided in the applicable Specific Account Pricing provisions, rules or charges contained within Specific Account Pricing provisions will apply in lieu of the same rules or charges published in this tariff.

Such shipment will not be accepted if the consignor executes Section 7 of the bill of lading.

**Section 2.** If, in the judgment of ABF, the forced sale of the goods would not realize the total charges due at destination, the shipment must be prepaid.

**Section 3.** If a shipment is required by Section 2 hereof or by any provision of the governing classification to be prepaid, it will be accepted on a collect basis if the consignor has established credit with ABF and the consignor guarantees to pay the charge if the consignee fails to do so. ABF reserves the right to not accept such a shipment as a collect shipment if the consignor executes Section 7 of the bill of lading.

**PREPAYMENT OR COLLECTION OF FREIGHT CHARGES - EXPORT SHIPMENTS

**ITEM 771**

All charges on shipments for export transported on rates governed by this tariff must be prepaid, including all special service charges, all charges paid longshoremen, stevedores, public loaders, riggers, and charges covering top wharfage. The provisions of this item will not apply in connection with shipments moving on U.S. Government bills of lading, in connection with shipments destined to points in Canada, or when the bill for freight charges is to be sent to and paid by the consignee at a location in the continental U.S. other than the port of embarkation.

**PREPAYMENT ON SHIPMENTS TO EXHIBITIONS, FAIRS, ETC.**

1. A charge of \$15.85 per transmission will apply for transmitting to a shipper, consignee, or any other party, any of the export documentation named previously in this item by air, certified, express, or registered mail.
2. A charge of \$39.70 per electronic filing will apply for the electronic filing of Export Declaration on the behalf of the shipper. Application of the service and the charge will occur when the shipper fills out form 7525-V and signs authorization (Block 29) for carrier to electronically file on shipper’s behalf. **LIABILITY LIMITATIONS**  
**(Subject to Notes 1, 2, 3 & 4)**

**ITEM 780-1**

**Part A: Cargo Loss & Damage Claims**

ABF will assume liability for cargo loss and damage claims under the federal laws applicable to common carriage in effect on the date of the shipment and the terms and conditions of the Uniform Straight Bill of Lading (ABF International Bill of Lading, the applicable Canadian Bill of Lading or Mexican law when applicable), except as shown herein, or to the extent otherwise specifically outlined in participating tariffs. ABF's liability for cargo loss and damage begins upon signing the receipt or bill of lading for property it receives for transportation.

ABF will investigate and dispose of cargo loss and damage claims under common carrier provisions as set forth in 49 C.F.R. Part 370, and STB NMF 100 Series, Items 300100 through 300155. Any and all cargo claims must be filed against ABF within nine months after the delivery of the property (or, in the case of export traffic, within nine months after delivery at the port of export), except that claims for failure to make delivery must be filed within nine months after a reasonable time for delivery has elapsed. When claims are not filed within the prescribed time limits such claims shall be barred and not paid.

Any lawsuits for cargo claims shall be instituted against ABF no later than two years and one day from the day when written notice is given by ABF to the claimant that it has disallowed the claim or any part or parts of the claim specified in such notice. Where claims are not filed or lawsuits instituted thereon in accordance with the foregoing provisions, ABF shall not be liable and such cargo claims will not be paid.

In no event shall ABF be liable for any claim based upon any item which is a prohibited article as defined in Item 780 herein whether or not knowingly accepted for transport by ABF.

### Section 1 - Liability Limitations

Except as otherwise specifically provided herein, or modified to the extent specifically outlined in participating tariffs, in the event of loss of and/or damage to any shipment, ABF's liability will not exceed the lesser of:

1. the actual value of the article(s)
2. the lowest released value provided in ABF 100 Series or in STB NMF 100 Series (Note 3)
3. \$100,000 per shipment
4. any general statutory or regulatory domestic or international cargo liability limitations
5. the maximum per pound per lost or damaged package outlined in Table A herein, for the weight of each article tendered on the shipment. Maximum liability will be derived from the actual class of the article tendered (as published in ABF 100 Series or in STB NMF 100 Series); or derived from the applicable FAK or class exception rating if charges are determined by application of an FAK or class exception rating

**TABLE A**

Class/FAK	Maximum Liability *	Class/FAK	Maximum Liability *	Class/FAK	Maximum Liability *
50	\$ 2.00	85	\$15.00	175	\$25.00
55	\$ 2.00	92.5	\$20.00	200	\$25.00
60	\$ 3.00	100	\$20.00	250	\$25.00
65	\$ 5.00	110	\$25.00	300	\$25.00
70	\$ 7.00	125	\$25.00	400	\$25.00
77.5	\$10.00	150	\$25.00	500	\$25.00

\* Maximum liability is per pound per lost or damaged package.

### Section 2 - Optional Excess Liability Coverage

Except to the extent otherwise outlined in subsequent Sections herein, or to the extent otherwise specifically outlined in participating tariffs, Shipper may request ABF liability coverage in excess of the limits outlined in Section 1 above (or \$100,000 per shipment, whichever is lower), by indicating in writing in the section or box designated "Kind of Package, Description of Articles, Special Marks and Exceptions," or some similarly marked area of the bill of lading, at time of shipment the total dollar amount of excess coverage requested (See EXAMPLE). Excess coverage will be applied on a per pound per package basis. The maximum excess liability is \$150,000 per shipment, for a total of \$250,000 when added to the initial maximum coverage. However, excess liability coverage will not apply on:

1. Articles specifically named in Section 1 of Item 780 herein.
2. Articles with actual, declared or released values as described in ABF 100 Series or in STB NMF 100 Series.
3. Any amount that exceeds the actual value of the goods.

ABF will assess an additional charge of 3% of the requested excess coverage in excess of the initial maximum liability, subject to minimum excess coverage charge of \$45.75. Such charge is in addition to all other lawful freight charges. Charges are to be paid by the party responsible for payment of the otherwise applicable freight charges. Excess liability coverage is not and will not be considered as insurance. Excess liability coverage will only apply to shipments that meet the provisions outlined in the bill of lading contract, including the minimum packaging requirements, as provided in the NMFC 100 Series. Carrier has the right to refuse ELC where Carrier deems the cargo unsafe to transport.

EXAMPLE: Shipper requesting \$10,000 additional excess coverage would enter on the bill of lading as follows:

"\$10,000 excess liability coverage requested"

- or -

"Excess liability coverage requested: \$10,000."

*Note: A statement of value (such as a "declare value") without an express request for excess liability coverage will not increase ABF's liability, and charges for excess liability coverage will not be assessed.*

### **Section 3 - Liability--Other Than New Commodities**

All commodities other than new, when accepted and transported by ABF, will be subject to a maximum liability of \$0.10 per pound per lost or damaged package unless the shipper has requested excess liability coverage, as provided in Section 2 herein. The maximum liability assumed by ABF will not exceed \$5.00 per pound per lost or damaged package.

In order for a shipment containing commodities other than new to be eligible for excess liability coverage as allowed for in the Sections of Item 780-1, the shipment must be packaged so as to meet the minimum packaging requirements as provided for the commodity or commodities in the NMFC 100 Series.

Failure of the shipper to declare that a commodity is "other than new" shall not alter the application of this item.

### **Section 4 - Volume Price Quote Liability**

ABF's liability for loss of and/or damages to Volume Price Quote shipments, as further defined in Items 597 and 597-1, will be governed by the terms of the Volume Price Quote, not to exceed the actual value of the cargo. In cases where ABF's liability is not established by the terms of the Volume Price Quote, ABF's liability will not exceed the lesser of:

- A) \$1.25 per pound per lost or damaged package
- B) \$0.10 per pound per lost or damaged package for any items that are not new
- C) \$10,000 per shipment
- D) The actual value of the cargo

Optional Excess Liability Coverage is available upon request at the time of the quote, and as provided in Section 2 herein.

### **Section 5 - Canadian Liability**

Except to the extent further restricted in Sections herein, shipments originating from Canada that are accepted and transported by ABF will be subject to the following:

In the event of loss of and/or damage to any shipment, ABF's liability will not exceed \$2.00 Canadian per pound computed on the total weight of the lost or damaged goods tendered by the shipper, unless the shipper has requested excess liability coverage and has indicated the amount of excess liability coverage on the original bill of lading in the manner defined in Section 2 herein.

A statement of value (such as a "declared value") without an express request for excess liability coverage will not increase ABF's liability, and charges for excess liability coverage will not be assessed.

When the shipper requests a specific amount of excess liability coverage on the original bill of lading, ABF will assess a charge of 3% of the requested excess coverage, in excess of the initial maximum liability of \$2.00 Canadian per pound for weight of shipment, subject to a minimum excess coverage charge of \$45.75, in addition to all other charges. See example in Section 2 herein. Unless specifically requested in Canadian dollars, charges and excess liability limits will be based on U.S. dollar amounts. When requested in Canadian dollars, limits and subsequent fees in this section will be calculated in Canadian dollars.

**Section 6 - Mexican Liability**

When through service by ABF is available from or to a point in Mexico and the shipper requests such service, in the event of loss of and/or damage to any shipment during the portion of the transportation within Mexico, ABF's liability will not exceed \$0.50 per pound per lost or damaged package, unless the shipper has requested excess liability coverage as outlined in Section 2 herein. Shippers requesting cargo protection in Mexico that exceeds \$0.50 per pound, when accepted and transported by ABF, will also be subject to a 15% deductible. The maximum liability is \$100,000 per shipment.

ABF assumes no liability on the Mexico portion of the transportation on shipments of fresh fruits, plants, flowers, explosives, and corrosive chemicals.

**Section 7 - TimeKeeper® Liability**

Except as otherwise specifically provided, ABF's liability for TimeKeeper shipments will be limited by the provisions outlined in the Sections herein.

However, in cases where a TimeKeeper shipment shall not move entirely within ABF's own shipping network to achieve the requested service, ABF's liability shall be limited to \$0.50 per pound per lost or damaged package.

In addition, commodities subject to one or more released or actual value provisions as published in NMF 100 Series or ABF 100 Series for any specific commodity tendered for transportation shall be released to the lowest released value or the lowest actual value provided therein, not to exceed the limitations provided herein.

Optional Excess Liability Coverage is available as outlined, and must be requested in the manner required, in Section 2 herein.

**Section 8 - FreightValue® Price Quote Liability**

FreightValue's liability for loss of and/or damages to FreightValue Price Quote shipments will be governed by the terms of the FreightValue Price Quote, not to exceed the actual value of the cargo. In cases where FreightValue's liability is not established by the terms of the FreightValue Price Quote, FreightValue's liability will not exceed the lesser of:

- A) \$5.00 per pound per lost or damaged package
- B) \$0.10 per pound per lost or damaged package for any items that are not new
- C) \$100,000 per shipment

In cases where ABF's liability is not established by the terms of the Introductory Price Quote, ABF's liability will not exceed the lesser of:

- A) \$1.00 per pound per lost or damaged package
- B) \$0.10 per pound per lost or damaged package for any items that are not new
- C) \$10,000 per shipment
- D) The actual value of the cargo

Optional Excess Liability Coverage is available as provided in Section 2 herein, however ABF's liability for a shipment moving under an Introductory Price Quote will not, under any circumstance, exceed the lesser of \$25 (\$5 for other than new) per pound per lost or damaged package or \$100,000 (\$20,000 for other than new) per shipment.

**Section 10 - Turnkey Liability**

ABF's liability for loss of and/or damages to a shipment moving under ABF TurnKey service will be limited by the provisions outlined in Sections herein, except that ABF's liability will be further limited to the lesser of \$5.00 per pound per lost or damaged package, or \$50,000 per shipment, unless the shipper has requested excess liability coverage, as provided in Section 2 herein. However, excess liability cannot exceed \$25.00 per pound per lost or damaged package.

**Section 11 - Ocean Liability**

Except as otherwise specifically provided, ABF shall not be liable for any loss or damage to, or in connection with, the ocean transportation of goods in an amount exceeding \$500 per package, or in case of goods not shipped in packages, per customary freight unit.

Note 1 - The term "package," as used in this item, means any primary shipping package authorized by the provisions of individual tariffs or classification items. When a number of packages have been unitized, strapped or otherwise fastened together, or contained on pallets, platforms or skids, or have been overpacked in an additional complying package, ABF's liability will be determined by separately multiplying the weight of each individual package lost or damaged "times" the applicable per pound per package liability as set forth herein and not on the basis of the weight of the total number of packages unitized, strapped or otherwise fastened together or contained on pallets, platforms or skids, or overpacked in an additional complying package.

Note 2 - The provisions of this item will also apply on export or import shipments.

Note 3 - Where the shipper fails to notate a released value on the original bill of lading and an article(s) is rated at the class provided for the lowest released value, as required by Item 420 of ABF 111 Series, ABF's liability may not exceed the value resulting from such released value, subject to all other liability limitations herein.

Note 4 - Where the shipper fails to properly describe the freight on the original bill of lading, or uses a description "FAK" or "Freight All Kinds" or words of similar meaning, that does not properly identify the commodities shipped, subsequent claims for shortage or damage will be based on the lowest value of any commodity contained in the shipment.

**Part B: Incidental or Consequential Damages**

ABF SHALL NOT BE LIABLE, AND HEREBY DISCLAIMS RESPONSIBILITY, FOR ANY INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL PUNITIVE, OR MULTIPLIED DAMAGES OR OTHER INDIRECT COSTS, LOST PROFITS, FEES, OR CHARGES OF ANY KIND ARISING FROM ANY FREIGHT CLAIMS FILED HEREUNDER OR ANY OTHER ACTS, INCLUDING DELAYS OR OMISSIONS OF ABF, WHETHER FORESEEABLE, DISCLOSED OR NOT.

1. Shipments of hazardous materials or substances will be subject to the following requirements:
  - A. Such charges will begin at the time the shipment is delayed and continue until such time as transportation can be resumed or the shipment delivered to the consignee. Charges also apply on shipments delayed, by refusal or otherwise, at destination by consignee and begin upon Notice of Arrival (Item 345 of this tariff) to consignee.
  - B. The accrued charges will be collected from the party responsible for the delay or if delayed by a regulatory agency, charges will be collected from the shipper or party requesting movement of the shipment.

The carrier shall maintain a record of all such shipment and vehicle delays, including the arrival and departure times at points where delays occur and name of party responsible for such delays.

2. If required by federal, state or local regulations, ABF will prepare designated route plans which will set forth the routes to be utilized in transporting shipment of hazardous materials or substances from the initial origins to the final destinations. The designated route will be the shortest practical route over the highways approved by the appropriate state or local agency for the transportation of hazardous materials or substances and any interstate highway not disapproved by a state or local agency with enforcement authority. If the total distance from the initial origin to the final destination via the designated route of movement exceeds 115% of the shortest mileage from initial origin to final destination, the distance in excess of 115% will be charged for at the rate of \$7.63 per mile per vehicle. 5. Shipments containing Hazardous Materials, as described in Title 49 CFR, will be subject to an additional charge of \$24.55 per shipment per trailer in addition to all other applicable charges.

Any fines and/or penalties which are imposed on ABF as a result of the Shipper's failure to meet D.O.T. requirements will be charged back to the Shipper who shall reimburse ABF for losses incurred.

Note 1 - Nothing in this rule shall obligate carrier to transport shipments beyond the scope of their operating certificates or in violation of any law, regulation or ordinance.

Note 2 - Provisions of this Item do not apply on “HAZARDOUS WASTE(S) and/or WASTE MATERIAL” due to absence of carrier permit to transport such commodities.

Note 3 - Shipments containing hazardous materials or substances will not be accepted under ABF TimeKeeper<sup>®</sup> service unless the Customer or third party payor provides full disclosure and prearranges with ABF. Complete disclosure of the commodity being shipped must be made during the quotation process and the proper description must be included on the original bill of lading at time of tender to carrier.

If ABF inadvertently accepts a shipment under the TimeKeeper program that fails to meet the above conditions, the TimeKeeper program including the service guarantee therein, shall be null and void. Further, any and all liability for damages resulting from the hazardous material shall be borne by the Customer.

**TRANSPORTATION TAX, INTRASTATE SHIPMENTS**

**ITEM 975**

State taxes on transportation charges for intrastate shipments will be included on the carrier’s freight bill and collected from the payer of the freight charges.

**TRAILER FURNISHED BUT NOT USED**

**ITEM 985**

When ABF, upon receipt of a request to pick up a shipment, has dispatched a driver and trailer for such purpose, and through no fault of ABF, the trailer is not used, a charge of \$93.04 per day (or fraction thereof) per trailer, will be assessed against the consignor making such request. Accrual of these charges will terminate when ABF is notified that the trailer will not be used.

**ADVANCE WAREHOUSE SERVICE**

**ITEM 986**

When ABF acts as the warehouse for exposition freight that is either tendered at the ABF dock by another carrier, or transferred by ABF from the exposition facility to the ABF dock for future tender to another carrier, a charge of \$4.13 per cwt subject to a minimum of \$8.20 per shipment will apply. The charge provided in this item will include warehousing (trapping) the freight at an ABF facility and pickup from, or delivery to, an exposition facility. Provisions of this item apply only when the ABF terminal where the freight is dropped also is the ABF terminal that delivers the freight to the exposition facility; or when the ABF terminal performing the exposition facility pickup is the dock from which the freight will be tendered to another carrier.

Storage charges for trapped freight will not begin until 12:01 a.m. on the eighth business day after freight has been received and will thereafter be subject to all terms conditions and charges of Item 910 (Storage).

This charge will apply in addition to charges for any drayage services or equipment rental that may be required.

**WATERBORNE TRAFFIC - General Provisions**

**ITEM 988**

Rates and charges in tariffs governed hereby do not include pickup, delivery, loading or unloading service at piers, docks, transit sheds, steamship terminals, or wharves on export, import, coastwise or inter-coastal traffic.

Pickup or delivery service on such traffic, which includes loading or unloading charges of the longshoremen, stevedores or public loaders shall be subject to the rates and charges below and shall be in addition to all other charges applicable to the shipment.

All charges below applying on export shipments must be prepaid, to the extent outlined in Item 771 of this tariff.

Loading and unloading services at piers, docks, transit sheds, steamship terminals or wharves are performed by longshoremen, stevedores, or public loaders at rates and charges on file with the Federal Maritime Commission.

When requested, unloading of an ocean container may be performed by ABF at the ABF local terminal in lieu of the pier, dock, transit shed, steamship terminal or wharf. The services, to the extent requested, may include pickup of the container and movement to the ABF terminal serving the port, unloading of the container, and the return of the empty container to the port. The charges, as outlined herein, for such services will be in addition to all other lawful charges and will be collected from the party requesting this specific service.

Pickup of the container at the pier, dock, transit shed, steamship terminal or wharf, and subsequent return of the container:  
\$328.11 per container

Unloading of the container at the ABF terminal serving the port:  
\$164.04 per ocean container of less than 40 linear feet, when all freight is palletized  
\$262.46 per ocean container of 40 linear feet or greater, when all freight is palletized  
\$328.11 per ocean container of less than 40 linear feet, when freight is not palletized  
\$590.57 per ocean container of 40 linear feet or greater, when freight is not palletized

When the Customer makes arrangements directly with the terminal operator or the piers, docks, transit sheds, steamship terminals or wharves for payment of the pier charges, the charges below shall not apply. The notation, shown below, must be placed on the bill of lading by the consignor:

“Arrangement made with pier operator to bill shipper or consignee directly for pier loading or unloading charges.”

LTL or AQ shipments consigned to one consignee at one port may, upon arrival or prior to arrival at ABF's terminal serving the port, be divided into separate shipments for delivery to piers, docks, transit sheds, steamship terminals or wharves. These shipments shall be assessed charges based on a combination of charges applicable to and from the port city involved. The revised billing shall be sent to and paid by the party requesting this service. This service will not be given if delivery has been made according to original billing.

Charges named herein will not apply when shipment(s) is delivered in trailer(s) without transfer of the lading **to** the ocean carrier(s). The receipt of the trailer(s) by the ocean carriers shall terminate ABF's delivery service and liability. Charges below will not apply when shipment(s) is received in trailer(s) without the transfer of lading **from** the ocean carrier(s). The receipt of the trailer(s) by ABF shall constitute the beginning of ABF's service and liability.

When freight can only be loaded or unloaded by the terminal operator through use of “rigging or special equipment,” ABF will advance the charges of the terminal operator necessary to effectuate the loading or unloading of its vehicle.

All advanced charges shall be collected from the Customer.

All shipments, for export, not directly consigned at origin to an export pier dock, pier terminal, transit shed or wharf will be subject to the reconsignment or diversion charges published in Item 820 herein.

Except in connection with the Clean Truck Fee outlined herein, the additional charges assessed to ABF by port terminal operators for services rendered on shipments moving for export and/or import via marine port terminals will be advanced under the provisions of Item 300, herein. Such charges will not be absorbed by ABF and are in addition to the lawful charges otherwise accruing to the shipment.

A clean truck fee of \$0.05 per cubic foot, subject to a maximum charge of \$70.00 per shipment, will apply in connection with shipments moving through the Ports of Long Beach and Los Angeles. This fee will be included on the carrier's freight bill and collected from the payer of the freight charges.

**SHIPMENT WEIGHING, REWEIGHING AND WEIGHT VERIFICATIONS**

**ITEM 992**

1. At its sole discretion, ABF may choose to weigh or reweigh shipments in its custody and may correct the billed weight and assess proper freight charges accordingly. Such weighing or reweighing may be conducted with scales owned by ABF, including platform scales or lift truck scales with a manufacturer's specified tolerance of plus or minus 1%. The accuracy of such scales will be regularly verified by ABF. When the net freight charges are increased or reduced by \$15.00 or more as a result of weight or weight and classification changes, a \$20.80 weight adjustment fee will apply in addition to all other charges.
2. Upon request by the consignor, consignee or third party payor, the carrier will weigh or reweigh any shipment or vehicle(s) on carrier scales. Such weighing or reweighing will only be made while shipment is in the possession of ABF. A charge of \$29.28 per shipment per vehicle will apply for this service and such charge(s) shall be paid by the party requesting the service. If any error in the weight is determined, the billed weight will be corrected accordingly.

When the consignor tenders ABF a shipment where the bill of lading clearly does not provide an accurate shipment weight (including when '1 lb' is shown; or when no weight whatsoever is provided), ABF will weigh the shipment on carrier scales at ABF's convenience, subject to a charge of \$29.28 per shipment per vehicle in addition to all other applicable charges.

3. When ABF is requested to secure a certified public scale weight for any shipment or vehicle(s), a charge of \$101.52 will be made by ABF for each weighing or reweighing obtained in addition to the fee assessed ABF for use of the certified public scale. Such charge(s) shall be paid by the party requesting the service.
4. When Customer requests ABF to weigh or reweigh a vehicle both empty and loaded, the above charge in Paragraphs 2 or 3, as the case may be, will be made for each separate weighing.

**WEIGHT RECEIPT, CERTIFIED**

**ITEM 993**

When ABF is required to provide consignee with a weight certificate as a condition of performing delivery, a weight certification fee of \$20.80 per shipment shall be assessed in addition to all other charges. This charge will be assessed against the payor of the freight charges.

**WEIGHTS - OVERWEIGHT FINES AND RELATED EXPENSES**

**ITEM 994**

When the shipper's bill of lading does not provide an accurate shipment weight, the following will apply:

1. Item 992 of ABF 111 Series will apply.
2. The following charges will be assessed against the shipper and will be in addition to all other applicable charges:
  - A. The total actual costs of any resulting fines assessed against ABF.
  - B. When ABF's driver and/or equipment is delayed by state, federal or other regulatory authorities, a charge for the total delay time shall be assessed at the rate of \$116.27 per hour or fraction thereof, subject to a minimum charge of \$116.27.
  - C. When it is required that the contents of the equipment be rearranged, unloaded, reloaded, or transferred to other equipment, a charge for the total time (see Note 1) spent in performing these functions shall be assessed as follows:

<b>Days — Hours</b>	<b>Per employee, per hour or fraction thereof</b>	<b>Minimum Charge per Employee</b>
Monday through Friday (Except Legal Holidays) 8:00 a.m. to 5:00 p.m.	\$ 104.93	\$ 104.93
Monday through Friday (Except Legal Holidays) 5:00 p.m. to 8:00 a.m.	157.74	157.74
Saturday, Sunday and Legal Holidays	157.74	864.59

Note 1 - Total time shall be computed from the time the employee(s) is dispatched from ABF's terminal facility until the employee(s) arrives back at ABF's terminal facility after having performed the requested function(s).

**WEIGHTS - GROSS WEIGHTS (Charges on Gross Weights)**  
**(Subject to Note 4)**

**ITEM 995**

1. Charges shall be computed on gross weights, including any pallets or other shipping containers, but not including any temporary stowing components or materials that equate to 3% or less of the total weight of the shipment. The weight of such materials in excess of 3% of the total weight of the shipment will be charged for at the lowest rate applicable on any article in the shipment.
2. Subject to Notes 1, 2, and 3, when freight which moves on rates subject to a minimum weight of 20,000 pounds or more is prepared for shipment in conformity with packing requirements and, in addition, is loaded on pallets, with or without sides or ends, but without tops, no charge will be made for the transportation of the pallets, provided the shipper specifies the weight of the pallets on the bill of lading.

3. Any temporary stowing components or materials required for safe transportation of a shipment must be furnished and installed by the shipper. However, upon request, the materials may be furnished and/or installed by ABF subject to the following provisions:

- A. Except for bulkheads, when materials are furnished by ABF, the cost thereof will be paid by the shipper upon presentation of an invoice from a supplier independent of ABF covering such materials used on the involved shipment.

Subject to Note 5, when bulkheads are furnished by ABF, a bulkhead usage fee of \$111.28 per bulkhead will be assessed against the payer of the freight charges except this fee will not apply in connection with shipments moving under ABF U-PACK MOVING® service.

- B. The labor charge for installation of any material, including bulkheads, will be \$90.90 per hour, or fraction thereof, for each man.

Note 1 - When material, not a part of the pallet, is used to protect the top of the shipment or to help secure the load to the pallet, allowance will be made for the weight of the pallet but not for the additional material.

Note 2 - The weight of the pallets may not exceed 3% or 1,000 pounds, whichever is less, of the weight of that portion of the shipment loaded on such pallets. Any excess weight will be subject to the rates applicable to the commodity loaded on such pallets.

Note 3 - When the total weight of the shipment, less the weight of the pallets, is less than the minimum weight provided in connection with the applicable rate, charges will be assessed on the basis of the prescribed minimum weight.

Note 4 - The term "pallet" includes and is interchangeable with the terms "platform" and "skid."

Note 5 - Unless otherwise specifically provided in a TimeKeeper quote; or in Specific Account Pricing provisions in ABF 610, use of a bulkhead will negate any TimeKeeper service requested on the freight bill at time of shipment.

**MINIMUM WEIGHT PER PIECE**

**ITEM 997**

**(Applicable only where specified reference is made hereto)**

Charges on shipments made subject to the provisions of this item shall be calculated on the actual weight of the shipment but not less than 15 pounds per piece.

**Conditions and Definitions:**

1. The word "piece" refers to that single quantity of freight which in the normal course of loading, transferring or unloading is individually handled as a unit.
2. The minimum shipment weight determined by use of this item, when greater than the actual weight, shall be used to calculate the freight charges and, unless otherwise specifically provided, will not be considered as the applicable weight to be used for any other purpose.
3. In no case shall the weight calculated by use of this item exceed:
  - A. 22,500 pounds per each "pup" or "doubles trailer" required to transport the shipment, or
  - B. 43,000 pounds per each "van" or "standard trailer" required to transport the shipment.
4. Provisions of this item will not apply in connection with shipments subject to CAPACITY LOAD or EXCLUSIVE USE OF VEHICLE provisions in Items 390, 390-1, 525 and 525-1 of this tariff; or rates stated in units per mile or per piece of line-haul equipment.
