13. Refund, deduct, incentive refund and incentive deduct discounts are defined:

- A. Refund discounts are those discounts described by the use of the term(s) "refund," "claim," "abstract," "off bill" or similar words when no part of the discount is to be shown as a deduction on the freight bill. Incentive refund discounts apply similarly, but are further described by use of the term(s) "incentive," "volume incentive," "threshold," "per shipment" or similar words. Federal law requires that off-bill discounts/refunds and the party to whom they are paid be disclosed on the copy of the carrier freight bill presented for payment.
- B. Deduct discounts are those discounts which result in a reduction in the charges on the freight bill. Incentive deduct discounts apply similarly, but are further described by use of the term(s) "incentive," "volume incentive," "threshold," "per shipment" or similar words.

14. The terms “effectively occupying,” “effective occupancy,” “effective cube,” and similar terms, refer to the line-haul equipment space required to transport a shipment. Unless otherwise specified, “cubic feet” of a shipment will mean “effective occupancy” of that shipment.

Effective occupancy in cubic feet shall be determined by multiplying the greatest (most extreme) straight-line dimensions of length, width and height of space the shipment occupies in inches and dividing the total by 1,728 cubic inches (one cubic foot). All fractions under one-half inch will be dropped, all fractions of one-half inch or greater will be extended to the next full inch. Subject to the following minimum dimensions:

- i. Height: A minimum vertical dimension of eight (8) feet shall be used to determine the cube of the shipment when top loading of **like** cargo is precluded because of:
 - A. the nature of the shipment, including conditions which inhibit top-loading or which would pose a hazard of damage to cargo or its packaging;
 - B. packaging or lack of packaging used
 - C. palletization in “pyramided,” “rounded off,” or “topped off” fashion;
 - D. specific instructions by the shipper in the form of a bill of lading notation, including instructions to avoid top-loading or double stacking; and/or
 - E. the height of the shipment when it exceeds 60 inches.
- ii. Width: If the extreme width dimension of a shipment is six (6) or more feet, a minimum width of eight (8) feet will be used to calculate effective cubic occupancy.
- iii. When a shipper prohibits the carrier from utilizing any part of a trailer by means of installing Secured Shipment Dividers, bulkheads, partitions, blocking, bracing or any other means, the measurements used in determining the cubic requirements of the shipment will be: Height – 106 inches; Width - 96 inches; Length - the linear distance from the inside front of the trailer to that portion of the partition, blocking, bracing, etc., nearest the rear of the trailer

If shipment dimensions are not available, the minimum dimensions for height and width as outlined above will apply for each individual piece in determining the effective occupancy of the shipment.

For the purpose of determining NMFC density-based classifications, the dimensions of articles will be calculated in accordance with Section 8, Item 110, NMFC 100 Series.

15. The terms “Zip Zone,” “Zip Code Prefix,” “Three-Digit Zip Code,” etc., mean the first three characters of the postal code (including the Canadian postal code, if applicable) assigned to a particular point.

APPLICATION OF TARIFF**ITEM 150**

This tariff contains terminal service rules and charges for application with shipments moving under rates and other provisions **in this tariff, and in tariffs and contracts governed by this tariff.**

NON-APPLICATION**ITEM 151**

Except as otherwise provided, pricing provisions producing charges lower than the full unreduced class rates (including but not limited to commodity rates, discounts, percentage expressions, modified special service charges, exception ratings lower than the NMFC class or rating, and allowances) will not apply on:

1. shipments which are subject to Section 13712 quotations (often referred to as government tenders);
2. shipments that have departed the origin terminal moving on "collect on delivery" or "order notify," or shipments that are converted to "collect on delivery" or "order notify" in route;
3. special service charges or charges advanced by ABF Freight;
4. shipments subject to otherwise discounted class rate scales;
5. shipments subject to the "Exclusive Use of Vehicle" provisions of Item 525, herein and/or subject to the "Capacity Load Minimum Charge" provisions of Item 390, herein;
6. shipments subject to truckload or volume rates;
7. distribution charges, local beyond charges, handling charges, or any other charges applying in connection with pool distribution shipments. (Except, the charges on the linehaul portion of a pool distribution shipment may be reduced when all other criteria are met.);
8. commodities where the governing classification, STB NMF 100, publishes a "0" provision, or a "not taken" provision;
9. magazine, periodical, or flexible paper book covers or part covers, having value for credit purposes except when consignor declares a released value at time of shipment as provided in ABF 100, Section 2;
10. shipments moving between points in the same state, unless rated under ABF Freight class rate tariffs listed in Item 130 herein.
11. shipments rated at the 20M-40M line of rates, unless rated under ABF Freight class rate tariffs listed in Item 130 herein. When shipments with a rated weight of 10,000 lbs. or more are rated under class rate tariffs not outlined in Item 130, the lower of either the undiscounted TL (20M-40M) weight bracket rate or the discounted 10,000-lb. weight bracket rate will apply.

APPLICATION OF SPECIAL CHARGE WAIVERS**ITEM 155**

Except as otherwise provided, waivers or exceptions to special service charges will apply only for the paying party for whom the waiver or exception was established.

QUOTATION OF ESTIMATED CHARGES**ITEM 160**

1. When ABF Freight has furnished, either orally or in writing, an estimate of published tariff charges, that estimate will be based on the effective published tariff provision(s) and the facts concerning the shipment(s) which are provided to ABF Freight.
2. Estimates of freight charges are furnished as a convenience to the shipping public, represent an approximation of freight charges, and are not binding either on ABF Freight or the shipper.
3. All transportation charges on a shipment will be assessed on the basis of provisions legally in effect at the time of shipment and the characteristics of the freight actually tendered to ABF Freight.

*Note:

If diesel fuel prices drop below \$1.50 or equal or exceed \$4.01, an updated fuel surcharge table will be issued.

Application:

1. The fuel surcharge level will be adjusted on Wednesday of each week based on the U.S. National Average Fuel Index of the prior Monday. The National Average Fuel Index is published by the Energy Information Administration of the U.S. Department of Energy and is available by telephone at 1-202-586-6966 or on the Internet at www.eia.doe.gov. If the National Average Fuel Index is not updated on the prior Monday, the next updated National Average Fuel Index posted prior to Wednesday will be used to calculate the fuel surcharge level for that week beginning on Wednesday and ending on Tuesday of the following week. In the event the National Average Fuel Index is not updated by Tuesday, the previous week's index will be used.
2. For the purposes of this item, 'TL' shall be defined as a shipment:
 - A. effectively occupying more than 28 linear feet of line-haul equipment space; or
 - B. having actual weight of 20,000 lbs or more (Note 1); or
 - C. moving as a Capacity Load (Items 390).

Note 1 – Not applicable for shipments moving under a Volume Price Quote.

3. In applying the surcharge, first determine the freight charges that would otherwise be applicable without the effect of the surcharge, including the effect of the alternation process and any applicable discount or reduction. Once determined, the charge will then be subject to increase by the amount of the surcharge. The surcharge will be shown as a separate line entry on the freight bill.
4. Freight charges for line haul transportation shall include line haul, ocean, pickup and delivery charges such as, but not limited to, minimum charges, charges calculated from class or exception rates, density minimum charges, absolute minimum charges, minimum truckload charges, exclusive use minimum charges, capacity load minimum charges, per vehicle charges and per pup charges. Except as otherwise provided, the increase will not apply to charges for special services. Where a through rate is constructed by combining two or more factors, the surcharge shall be applied to the resulting total charges.

CALIFORNIA COMPLIANCE SURCHARGE

ITEM 162

Shipments originating from and/or destined to the state of California will be subject to a charge of \$5.92 per shipment due to higher operating costs, including but not limited to compliance with California state regulations. The charges provided in this item will not apply to shipments moving under a Volume Price Quote, a TimeKeeper Price Quote, a TurnKey Price Quote or a U-Pack® Quote.

DASHES BETWEEN RATE SCALES; APPLICATION OF RATES

ITEM 164

Where rate scales in this tariff, or in any tariffs governed by this tariff, are separated by a dash (-), it shall indicate that the rate scales specifically shown and all rate scales in between are included. (e.g. MCHG-10M means all rate scales beginning with MCHG and ending with 10M).

APPLICATION OF RATES - ZIP CODE PREFIX**ITEM 165**

1. Where rates are determined or the application of those rates is governed by Zip Code Prefix Groups, those Groups include all points assigned to the same first three digits of the U.S. Postal Service Zip Code. For example, where a Zip Prefix Group such as "386 thru 394" or "386-394" is used, the Zip Code Prefix Group is all inclusive of such three-digit zip code numbers.
2. A zip code prefix assigned to a customer's physical location will be used for rate making purposes.
3. Base rate tariffs not issued by ABF Freight are defined as foreign tariffs. When a foreign tariff, or an older ABF Freight rate tariff, is used as the basis for rating a shipment as part of applicable Specific Account Pricing provisions, and the bill of lading covering the shipment is shipped from or consigned to a U.S. zip code or a Canadian postal zone that is not identified and included within the applicable rating tariff, then the shipment rating will be accomplished by using the following hierarchy:
 - a. Apply the most recently-assigned zip code or postal zone for the origin (or destination) that is identified and included in the rating tariff.
 - b. Apply the current ABF Freight base rate tariff.
 - c. Rate the shipment from the ABF Freight terminal nearest the origin (or to the ABF Freight terminal nearest the destination), with an advancing charge (or beyond charge) if required.

APPLICATION OF SPECIFIC ACCOUNT PRICING**ITEM 166**

Specific Account Pricing (defined in Item 110, Paragraph 12) which is published to apply for a parent account, its subsidiaries and/or divisions, will apply only for subsidiaries or divisions which are majority-owned by the parent and will become effective one working day after prior notification is received by ABF Freight of the account ownership.

Such prior notification must include the name of the parent company, the name of the division or subsidiary company, the street address, city, state (or province), and zip (or postal) code.

Notification must be made, in writing, for all changes in ownership or physical location, and directed to:

Account Information Management System Supervisor
ABF Freight System Inc.
3801 Old Greenwood Road (Zip 72903)
Post Office Box 10048
Fort Smith, AR 72917-0048

Only one **specific account pricing provision** shall be applied per shipment. However, one loading and/or one unloading allowance may be applied in addition to the one applicable **specific account pricing provision**. Where combinations of rates are applicable, these provisions will apply separately to each component of the combination.

In the event ABF Freight receives no shipments rated under a specific account pricing tariff item during a continuous 120 day period, ABF Freight reserves the right to discontinue the item without further notice.

**AUTHORIZED SIGNATURES FOR TRANSPORTATION
AGREEMENTS OR CONTRACTS****ITEM 168**

ABF Freight's President, Vice President - Yield Management, and Director - Pricing are the only representatives or employees authorized to sign agreements or contracts covering the price, terms or conditions of ABF Freight's transportation services. No other employee or representative of ABF Freight is authorized to sign such agreements or contracts on behalf of ABF Freight.

Electronic Signatures, as defined below, shall be recognized as valid forms of signature on such agreements or contracts, unless specifically excluded through the Global and National Commerce Act (E-Sign).

Electronic, digital, and digitized signatures shall be defined as:

1. **Electronic Signatures:** any sound, symbol, or process (specifically excluding e-mail) using an electronic medium to identify an individual (i.e., a password, or any of the other forms of electronic signature identified below.)
2. **Digital Signature:** an electronic signature using asymmetric cryptography to encrypt and decrypt messages.
3. **Digitized Signature:** a digital image of a physical signature created either by scanning a physical signature or using an electronic device to create a digitally replicated signature.

Where ABF Freight is required to retain records of documents either by statute or other agreement, such records will be retained by an electronic record of the electronic, digital, or digitized signature.

The signature of an ABF Freight employee on the bill of lading only acknowledges receipt of the freight. Continued use of an unauthorized bill of lading by the shipper will not constitute an implied acceptance by ABF Freight.

AUTHORIZATION TO SCREEN AIR CARGO**ITEM 170**

As required by the Transportation Security Administration (TSA), effective February 1, 2009, all shipments moving via air carrier through any portion of the transportation from original origin to final destination require consent from the shipper for the TSA to screen the shipment as deemed necessary. The shipper indicates agreement and consent to the terms and requirements contained within the Indirect Air Carrier Standard Security Program (IACSSP) in effect at time of pickup.

APPLICATION OF CLASSES--ARTIFICIAL CONSTRUCTION OF DENSITY TO OBTAIN A LOWER CLASS (BUMPING)**ITEM 171**

“Bumping” is the declaration on the original bill of lading of an artificially higher weight for the purpose of causing a higher density that allows the article or piece being “bumped” to qualify for a lower classification rating.

“Bumping” may be performed under the provisions in Item 171, NMF 100 Series (NMFC) subject to the following:

1. “Bumping” provisions may only be used for commodity items in the NMFC that assign classes based upon density and then only for those that make specific reference to Item 171 in the NMFC.
2. Shipper may only “Bump” to the next lower (NMFC) class or rating. “Bumping” to an exception or freight all kinds class or rating is not permitted.
3. When the provisions of this rule are utilized, shipper must declare intent to “bump” at time of shipment and include the following items on the original bill of lading: actual cube, actual weight, density group (sub) embracing the actual density, declared density and declared weight for billing.

RATE/ROUTE - HAWAII, PUERTO RICO OR THE VIRGIN ISLANDS**ITEM 175**

Shipments moving between points in the contiguous United States and points in Hawaii, Puerto Rico or the Virgin Islands will be routed and rated jointly via ABF Freight and ABFC (to the extent service is provided) unless the shipper (or consignee) specifically requests other arrangements and so notes that request on the bill of lading when the shipment is tendered to the originating carrier.

BOATS, KAYAKS, OR CANOES - PACKING OR PACKAGING**ITEM 261**

Rates published by ABF Freight for boats, kayaks, or canoes as described in NMF 100 will apply only when packed in wooden boxes. In the event that a shipment of boats, kayaks, or canoes is prepared via another method, the shipment will be subject to the provisions outlined in ABF 100 Series.

A charge of \$190.00 per shipment will apply for NMFC Item 40560. For all other carbon black commodities outlined herein, a charge of \$440.00 per shipment will apply.

ADVANCING CHARGES (Exception to NMF 100, Item 300)**ITEM 300**

No charges of any description will be advanced to shippers, owners, consignees or their agents, nor to their draymen or warehousemen, except charges which are incidental to the transportation of the shipment. The nature of charges to be advanced must be stated on the bill of lading at the time of shipment.

The charges for collecting and remitting the amount of the advance charges will be collected from the consignee, except that such charges may be prepaid by the shipper, providing notation to the effect is made by the shipper on the bill of lading and shipping order at time of shipment.

The charges for ABF Freight advancing moneys as described above will be 6% of the amount being advanced subject to a minimum charge of \$93.35.

1. Inbound transportation charges (ocean transportation charges moving in foreign commerce will not be advanced).
2. Loading or unloading charges.
3. Charges for packing and crating the shipment.
4. Drayage charges, defined as local transportation within the pickup terminal area from actual origin to the line-haul carrier's dock.

8. Broker's fees on customs or In Bond shipments (See Notes 1 and 2).
9. Demurrage.
10. Carrier's storage.

Note 1 - When reference is made hereto, the nature of the charges to be advanced need not be stated on the bill of lading at time of shipment if they accrue at a point other than the origin.

Note 2 - Provisions of this item do not include the advancing of broker's fees on In Bond shipments moving from a place in a foreign country to another place in a foreign country and transported through the United States.

2. Payment of the allowance will be made by ABF Freight to the Customer:
 - A. Only in connection with shipments for which applicable freight charges have been received by ABF Freight within 30 days of:
 - (1) the billing date in connection with shipments moving freight charges prepaid,

 - B. And then only when a claim is filed by the Customer with ABF Freight within 60 days of the date of the bill of lading or freight bill.

4. In the case of loading, any temporary stowing components or materials required to protect and secure shipments for transportation must be furnished and installed by the shipper.
5. When another transportation carrier, for which no interline agreement exists between ABF Freight and that carrier, requests delivery service to be performed by an ABF Freight terminal on their behalf, the consignee's unloading allowance established via Specific Account Pricing with ABF Freight will not be applicable.

Section 2: Definition

"Allowance" is an amount reimbursed to the Customer for performing (un)loading services that are usually performed by ABF Freight. The amount must be reasonably related to the cost that ABF Freight would have otherwise incurred.

Section 3: Loading & Unloading Allowances

1. ABF Freight will spot a trailer at the Customer's dock or in the Customer's yard. When necessary, the Customer will move the trailer(s) between their trailer parking area and their dock.
2. The complete loading/unloading of freight must be performed by the Customer at its expense, without requiring any assistance from the ABF Freight driver. The driver and power unit are to be released while loading/unloading is performed. At ABF Freight's option, the driver may remain during loading/unloading, and may render assistance.
3. The complete loading of the freight includes the counting of the freight.
4. The Customer shall arrange to load (or unload, as the case may be) ABF Freight's trailer(s). In either case, the Customer shall notate on the bill(s) of lading or freight bill(s), the total weight (in pounds) the Customer has loaded without the assistance of the ABF Freight driver.

5. The Customer shall notify ABF Freight when loaded and/or unloaded trailer(s) are ready for removal from the Customer's premises.
6. Customer shall have 24 hours from the time trailer(s) is spotted to load or unload. The actual weight of freight so loaded/unloaded by the Customer will be subject to the applicable allowance(s).
7. Loading/unloading allowances will not apply when Customer is required to provide loading/unloading service in accordance with the otherwise applicable tariff provisions, or Specific Account Provisions.
8. Loading/unloading allowances will not apply in connection with shipments moving under Volume Pricing Quotes, nor apply in connection with any price quotes, published general tariff, or Specific Account Pricing that is applicable in connection with a request for expedited time specific transportation service.

Section 4: Pallet Allowances

When allowances are based upon shipment palletization, the original bill of lading shall show the total number of pallets included in the shipment.

Section 5: Allowances for Pickup/Delivery of Freight by Customer at ABF Freight's Dock

When the shipper elects to tender shipment(s) at ABF Freight's origin dock or the consignee elects to accept delivery at ABF Freight's destination dock, instead of the normal pickup or delivery service as provided in Item 750, ABF 111, the following will apply:

1. When a specific allowance is established for the party performing the service, the established allowance in cents per one hundred pounds of actual weight will apply.
2. At the option of ABF Freight, the party performing the service may be paid an allowance for each service performed of \$0.50 per one hundred pounds of actual shipment weight, subject to a minimum of \$5.00 and a maximum of \$40.00 per shipment.

When the party performing the service is the payor of the freight charges, the allowance will be shown as an on-bill deduction from otherwise applicable freight charges. When the party performing the service is NOT the payor of the freight charges, ABF Freight's local terminal personnel will issue a check in the amount of the allowance and send it to the party who performed the service.

Allowances paid under the provisions of this Section 5 will:

1. be in addition to all other applicable discounts and pallet allowances.
2. not be subject to Paragraph 4 of Section 1, or Paragraphs 2 and 3 of Section 3 of this item.

2. If the shipment is not actually tendered for delivery, notice of arrival will be given to the consignee no later than the next business day following the arrival of the shipment.
 - A. The notice will normally be given by telephone. The notice, however transmitted, will specify the point of origin, the consignor, and the commodity and weight of shipment.
 - B. If mailed, the notice will be deemed to have been received by the addressee at 8:00 a.m. on the first business day after it was mailed.
3. For shipments consigned to private residences, as defined in Item 751, all notice of arrival shall be given in the manner described in Paragraph (2), unless prior delivery arrangements have been noted on the bill of lading by the consignor.

Undelivered Freight:

If ABF Freight cannot deliver the freight through no fault of its own, the shipment will be subject to applicable storage or detention charges.

BILLING - NON-STANDARD**ITEM 355**

When specifically requested by a party to the shipment transaction (requesting party) to change consignor and/or consignee names and/or locations or to suppress disclosure of such information, ABF Freight will make a diligent effort to perform the following non-standard billing service:

1. ABF Freight will accept the shipment when tendered by the party in possession of the shipment.
2. The document on which the shipment is tendered, whether issued by ABF Freight, the consignor or other party tendering the shipment will be used only to acknowledge receipt of the freight and will not be considered a bill of lading. The receipt will only show information about the payor of the freight charges, the consignee and consignee's location as requested by the payor or requesting party.
3. ABF Freight will issue a bill of lading for the complete transportation of the shipment or execute the bill of lading if issued by the requesting party. In either case, the bill of lading must contain all information required by law and all information required by ABF Freight to perform normal shipment transportation services and to calculate applicable freight charges.
4. ABF Freight will make delivery to the consignee on a delivery receipt that shows only information about the shipper (consignor), TPB or party paying the freight charges as requested by the payor or requesting party.
5. The request for this service must be made sufficiently in advance to permit performance of the above described functions.
6. ABF Freight will attempt to perform this service but will bear no responsibility or liability for inadvertent disclosure or incorrect delivery.
7. In addition to all otherwise applicable charges, including but not limited to the charge for Marking or Tagging as provided in Item 580, ABF 111 Series, a flat charge of \$99.15 per shipment per trailer will apply for the service provided in this item.

**BILLS OF LADING, FREIGHT BILLS AND STATEMENTS OF CHARGES
(Addition to NMF 100, Item 360)****ITEM 360**

Section 1(f). When the payor of freight charges requests any of the following as a prerequisite to payment, a charge of \$14.70 for each document or copy will apply.

1. The return of any part of bill of lading sets or copies thereof, other than the one shipper furnished copy. When as a prerequisite to payment, the shipper furnished copy of the bill of lading is to be returned, it must be clearly and prominently marked by the shipper with specific instructions directing its return with the freight bill.
2. Copies of freight bills or statements of transportation charges in excess of the number specified in Section 1 (e).
3. The preparation by ABF Freight of any forms requiring itemization, listing or description of single or multiple freight bills, for submitting with freight bills or statements of charges will be subject to a charge of \$1.22 per line of itemization, listing or description (or portion thereof) subject to a minimum charge of \$14.70 per page, per copy.
4. Any form or copies of forms, other than those described in Section 1 (f) (1) or Section 1 (f) (2), to be submitted with freight bills or statements of charges.
5. Any information not shown on the shipping order at time of shipment be shown on freight bills or statements of charges.

When payor requests proof of delivery be furnished in any form, ABF Freight does not obligate itself to perform such service, but agrees to make a diligent effort to perform the service at no additional charge for occasional requests with reasonable frequency.

The charges above will not apply to **Bank Payment Plans** when documentation is limited to deposit ticket(s) supplied by the bank or to **Sight Draft Plans** when documentation is limited to sight drafts which do not require ABF Freight to provide information pertaining to the rating of the shipment(s) on the sight draft.

Also, charges will not apply for either plan when documentation is limited to supporting freight bill(s) and statement(s) of charges not in excess of the number set forth in Section 1 (e), or the return of a copy of the bill of lading furnished by shipper.

The provisions set forth in Section 1(e) and Section 1(f) will not apply to shipments moving on United States Government Bills of Lading.

**BILLS OF LADING, FREIGHT BILLS AND STATEMENTS OF CHARGES
(Exception to Section 2(a) of NMF 100, Item 360)****ITEM 360-2**

Section 2(a). The name and address of only one consignor and one consignee and only one destination shall appear on a bill of lading. Bills of lading for shipments consigned "To Order" at one point, with instructions to notify the consignee at another point, will be permitted only when both points are adjacent or within the same commercial zone. When a shipment is consigned to a point of which there are two or more of the same name in the same state, the name of the county must be shown.

BILL OF LADING - AUTHORIZED**ITEM 361**

Unless otherwise specifically provided in this tariff, in tariffs governed by this tariff, or in a separate written agreement signed by authorized representatives of the Customer and ABF Freight, property received for transportation by ABF Freight requires all parties to the transaction to accept and use the bills of lading as set forth in paragraph 1 of this item and honor the following conditions:

1. **Authorized Bills of Lading.** The appropriate Canadian Provincial Bill of Lading will apply to shipments received for transportation by the originating carrier at a point in Canada. The bill of lading provisions, including the terms and conditions therein, found in the National Motor Freight Classification (NMFC), as amended, will apply to any other shipment received for transportation by ABF Freight.

Notations on the receipt, manifest, bill of lading, or any shipping document with regard to rates, charges or commodity classification will be considered for information purposes but will neither remove nor modify applicable actual rates, charges or commodity classifications in ABF Freight tariffs or written agreements.

2. **Authorized Signatures.** ABF Freight's President, Vice President – Yield Management, and Director-Pricing are the only representatives or employees authorized to sign agreement(s) on behalf of ABF Freight, allowing use of bills of lading other than the appropriate uniform bill of lading specified in paragraph 1 of this item. No other employee or representative of ABF Freight, including but not limited to ABF Freight drivers, is authorized to vary or modify bill of lading terms and conditions.
3. **Bills of Lading Signed by ABF Freight Driver.** Bills of lading signed by an ABF Freight driver or other employee, not named in Paragraph 2 above, may only be used to acknowledge receipt of the freight and identify the entity for delivery. Such bills of lading shall not be construed as a contract for the carriage of freight and under no circumstances shall ABF Freight be bound to the terms and conditions set forth therein.

BILLS OF LADING - CORRECTED**ITEM 362****1. Change in Bill of Lading or Payor of Freight Charges**

Corrections to bills of lading and/or other written instructions requiring a change in the original bill of lading, including, but not limited to, (a) a change in the paying party, (b) a change in the billing address, (c) the addition of previously omitted information, (d) to change the collection status from "collect" to "prepaid" or from "prepaid" to "collect" or (e) the addition, change, or deletion of a "third party billing" or "send freight bill to" party may be permitted, at the sole discretion of ABF Freight subject to the following conditions:

- A. A charge of \$31.00 per change will be added to the freight bill for each change in the bill of lading.
- B. A change in collection status or paying party will not be allowed after payment has been received on the basis of the original bill of lading.
- C. ABF Freight must receive written request for change in the collection status or paying party within a period of 30 days from date of the initial bill of lading.
- D. The original and new debtor must have established credit with ABF Freight.
- E. When the party requesting change in the collection status or paying party is shown as shipper or the paying party on the original bill of lading, they must guarantee, in writing, immediate payment of the applicable freight charges (and any additional charges incurred by ABF Freight) should the new debtor fail to pay within the prescribed Surface Transportation Board credit guidelines. The consignee may request a revision to become the paying party, although they are not designated as the paying party on the original bill of lading, provided ABF Freight is satisfied that the party making the request has the authority to do so. The consignee will also be subject to any additional applicable charges as a result of their request.
- F. Section 7 of the corrected bill of lading must not be executed.

2. Change in Description or Weight

Changes in description or weight will be permitted only upon presentation of satisfactory documentation (e.g., original invoice and descriptive literature) acceptable to ABF Freight, that the original bill of lading was in error. Charges shown in 1(A) will apply.

DETERMINING EFFECTIVE PRICING PROVISIONS**ITEM 382**

When an item is amended, the application of pricing provisions is governed by the issue and effective date shown. When two or more revisions of an item cover the same time period the version with the latest issue date supersedes earlier versions.

- B. That maximum quantity of freight that can be legally loaded in or on a vehicle or doubles trailer due to weight limitations.
- C. That quantity of freight which, in the manner loaded, utilizes a linear length of 24 feet or more and a linear width of 5 feet or more.

3. Additional Considerations:

- A. Each vehicle or doubles trailer required to transport the shipment, except one, shall be loaded to capacity and subject to the minimum charge as provided above. The vehicle or doubles trailer containing less than a capacity load will be considered overflow and rated as a separate shipment when the minimum is applied to any capacity loaded vehicle or doubles trailer in the shipment. For the purpose of determining application of the minimum charge, the total freight charges will be allocated to each vehicle or doubles trailer proportionate to the weight (of total shipment) contained therein.
- B. On shipments which move via two or more carriers, the minimum charge provided in this item will apply to the continuous through movement. The originating carrier shall indicate on the bill of lading and/or freight bill, the number of vehicle(s) doubles trailer(s) loaded to capacity, used by the originating carrier to transport the shipment, and shall also indicate if an additional vehicle or doubles trailer carrying less than capacity load was furnished. In the event an additional vehicle or doubles trailer was furnished, the originating carrier shall indicate the weight of the portion of the shipment loaded into such vehicle or doubles trailer.
- C. All rates and/or charges shown herein shall be considered volume or truckload.
- D. Except as otherwise provided, shipments are not subject to allowances, discounts or refunds.
- E. When, at the request of the consignor, a longer route than the shortest available regularly traveled route is used, the actual mileage over the longer route shall apply.
- F. This charge will be in addition to all other applicable charges incidental to the movement of containers.

CLASSIFICATION OF ARTICLES**ITEM 420**

1. Correction of article description or classification errors caused by incorrect description(s) on the original or corrected bill of lading supplied by the shipper will be subject to a \$31.00 reclassification fee per freight bill corrected when such correction causes an increase or reduction of \$15.00 or more in the net freight charges. Such charge will be added to the freight bill. However, when the weight adjustment fee provided in Item 992 is assessed, the reclassification fee will not apply.
2. Where the NMF 100 Series or ABF 100 Series publishes a "O" rating for a commodity, or a "not taken" provision, and ABF Freight inadvertently handles the shipment, the applicable rating shall be 500.
3. Subject to Item 565 herein, classification or rating provisions in the NMF 100 Series requiring a notation or statement of actual or released value are applicable only when such valuations are stated on the shipping order or bill of lading by shipper at time of shipment. Failure by the shipper to notate value, or the applicable NMF Item and sub number on the shipping order or bill of lading will cause ABF Freight to assess the otherwise applicable class rating not dependent on valuation. If none exists, ABF Freight will assess the lowest released value and rating, or the highest actual value and rating.

Carrier will honor corrected bills of lading upon receipt of acceptable proof of actual value. Corrected bills of lading will not be accepted nor will freight charges be adjusted on released value shipments.

CLASSIFICATION OF ARTICLES - HAZARDOUS**ITEM 420-1**

Empty or used packaging for shipping hazardous material or hazardous substance (exception to NMF 100 series).

1. Used Packaging, partially full or empty, for shipping Hazardous Material or Hazardous Substance will be subject to the class provided in the NMF 100 for the commodity represented by the residue last contained in such packaging if higher than the class for the packaging, unless Shipper certifies on the original bill of lading at time of shipment that such packaging is properly cleaned and purged of any hazardous residue or vapors.
2. The shipper shall be charged for all costs and damages, direct or indirect, resulting from the release, for any reason, of any undisclosed hazardous material or any undisclosed hazardous substances contained in used packaging tendered by shipper as being "empty."

In addition, the shipper shall be charged \$61.20 straight time and/or \$91.83 time and one-half for each labor hour, or fraction thereof, lost by ABF Freight because its facility is closed as a result of any release of such undisclosed hazardous material or hazardous substance.

CLASSIFICATION BY ANALOGY**ITEM 421**

The commodity rates made subject to this tariff apply only on specifically described articles in such tariffs and do not apply on analogous articles.

CLASSIFICATION OF COMBINED ARTICLES**ITEM 422**

When not specifically classified in the governing classification or specifically described in this tariff, articles which have been combined or attached to each other will be charged for at the rate provided for the highest rated article of the combination. On a shipment subject to volume rates, the minimum weight will be the highest minimum weight provided for any article in the combination.

When articles have been combined with or attached to vehicles, motor, or vehicles other than self-propelled, they will be rated as a combination article unless the combined article is specifically provided for in NMF 100 or in tariffs making reference to this tariff.

- B. When parties who undertake the payment of freight bills mail acceptable checks, drafts, or money orders in payment of freight charges, the act of mailing them within the 15-day period shall be deemed to be payment within the 15-day period. In case of dispute as to the date of mailing, the postmark shall be accepted as such date.
- C. Freight charges that are not paid within the credit period and for which ABF Freight acquires the use of an outside collection agency and/or attorney to effect collections will be subject to a late payment penalty of thirty percent (30%) of the unpaid amount.

3. Offsetting Charges.

Customer shall not offset from or delay the payment of lawfully established transportation charges due ABF Freight as result of any overcharge claim, charge back, duplicate payment or loss and/or damage cargo claim. A formal claim shall be filed and processed separately.

OVERCHARGE/UNDERCHARGE CLAIMS**ITEM 428**

Any claim or action at law by ABF Freight to recover undercharges alleged to be due hereunder, and any claim or action at law by Customer to recover overcharges alleged to be due hereunder, shall be commenced not more than 180 days after the receipt by ABF Freight of the shipment with respect to which such undercharges or overcharges are claimed. To the extent permitted by applicable law, the expiration of said 180 day period shall be a complete and absolute defense to any such claim and action at law, without regard to any mitigating or extenuating circumstance or excuse whatsoever, unless the party named as a defendant in such action has expressly agreed in writing to waive such defense in whole or in part.

In addition, payment terms will be changed from prepaid to collect or from collect to prepaid, as necessary, to ensure that the shipment is Prepaid, if the shipper and SFB (formerly TP) are affiliated, or Collect, if the consignee and SFB (formerly TP) are affiliated.

3. TPB shipments will be accepted only when the consignor has established credit with ABF Freight and guarantees to pay all lawfully accrued charges if the third party fails to do so within the time allowed under the credit regulations of the Surface Transportation Board.

Shipments qualifying for TPB may move either prepaid or collect but will not be accepted if the consignor executes Section 7 of the bill of lading.

5. In the event a lock or seal has been removed from a vehicle or doubles trailer, ABF Freight will immediately relock or reseal the vehicle or doubles trailer and will notate the accompanying papers with the new lock or seal number and the reason for removal of the original lock or seal.
6. The charge will be for the actual weight of the shipment at the rate applicable or at the minimum weight provided for in connection with the applicable rate, whichever is greater, subject to a minimum charge for each vehicle or doubles trailer used, computed on a weight of:
 - A. For a doubles trailer: 150% of the capacity load minimum charge for a doubles trailer as outlined in Item 390 of ABF 111.
 - B. For a vehicle: 150% of the capacity load minimum charge for a vehicle as outlined in Item 390 of ABF 111.

The provisions of paragraph 5 of Item 151 herein do not prevent application of any otherwise applicable discount in the calculation of the capacity load minimum charge as outlined in Item 390 of ABF 111 Series.

7. Charges are to be paid or guaranteed by the party requesting the services, and the non-recourse stipulation on the bill of lading may not be executed. (This paragraph is not applicable on shipments moving on government bills of lading.)
8. When the request for exclusive use of vehicle or doubles trailer is made by the Customer after shipment has been receipted for and is in possession of the carrier, ABF Freight will, if possible, intercept the shipment and convert it to exclusive use of vehicle or doubles trailer service over as much of the route as possible. The party making the request must confirm in writing and must guarantee charges. Such written verification will be preserved by ABF Freight and considered as part of the bill of lading. Charges will be assessed as provided in Paragraph 6 between the point of initial origin and point of destination.

The provisions of this item will not apply in connection with Item 900 (Stopoffs).

EXPORT OR IMPORT SHIPMENT REQUIREMENTS**ITEM 550**

Shipments must be accompanied by all papers necessary to comply with the requirements of governmental authorities.

Shipper must furnish all invoices, documentary evidence and declarations, including duties, fees and other charges which may be imposed or assessed against the property transported. ABF Freight will in no way be responsible for delays to the goods transported nor for goods held by any government for any reason whatsoever. Where all necessary requirements of such authorities are not complied with, and through no fault of ABF Freight, additional expenses and/or fines are incurred to comply with such requirements, those expenses may be advanced by ABF Freight and shall become a charge to the goods. Delivery will not be made until such charges are paid or guaranteed by shipper or consignee.

When shipments must be held by ABF Freight pending compliance of customs regulations by the shipper or his representative, a charge will be made for the service required on the part of ABF Freight as follows:

Unloading, handling and loading: \$3.84 per 100 pounds with a minimum charge of \$21.88, per shipment per trailer

Storage: \$2.94 cents per 100 pounds or fraction thereof per day subject to a minimum charge of \$14.80 per shipment per calendar day, but in no case less than \$52.17 per shipment. Fractions of a day will be considered as one day, and fractions of 100 pounds will be considered as 100 pounds.

In computing storage charges, time will begin 48 hours after 5:00 p.m. on the day rejection of entry is received by ABF Freight from the Customs broker, deemed to be acting as the agent of the shipper and/or consignee.

When shipments are delayed at the border, through no fault of ABF Freight, by either U.S. Customs, Canadian Customs or other regulatory agencies, the following fees shall apply:

Delay: No charge for the first 15 minute delay. \$48.74 for each succeeding 15 minute delay or fraction thereof.

PROPERLY IDENTIFIED SHIPMENTS**ITEM 555**

Shipments of articles which by D.O.T. regulations have co-loading restrictions (i.e., food, cosmetics, etc.), when tendered to ABF Freight, must be properly and clearly identified by the shipper on the bill of lading at time of shipment that the shipment contains such articles. If the shipper fails to so identify the shipment, ABF Freight will not be liable for any loss or damage.

EXTRA LABOR - LOADING OR UNLOADING**ITEM 560**

When requested by Customer, extra labor will be furnished by ABF Freight for loading or unloading. At each location where extra labor is used, the charge will be as follows:

Saturdays (Except Legal Holidays)	238.00	698.00

Time shall be computed from the time the extra labor arrives at the place of pickup or delivery until loading or unloading is completed. The charge will be in addition to all other charges and will be assessed against the Customer requesting the assistance. Extra labor will not be furnished unless requested by the Customer.

The provisions of this item do not *obligate* ABF Freight to furnish extra labor. The provisions of this item do not apply on Sundays or holidays. On such days, apply the charges provided in Item 754.

FORKLIFT SERVICE**ITEM 560-1**

On shipments that require a forklift service and the Customer does not furnish this service, ABF Freight will endeavor to arrange for forklift service and will charge the Customer requiring the service \$141.15 per half hour or fraction thereof for each forklift used, subject to a minimum charge of \$205.25 per shipment per trailer. Charges shall be computed from the start of the actual use of forklift equipment until the actual use of forklift equipment is terminated.

When forklift service is used on import or export traffic at wharves or docks, the provisions of this item shall apply regardless of the weight or size of the articles. On export shipments, charges which accrue under this item will be collected by the delivering carrier from the consignor.

ROUNDING OF FRACTIONS**ITEM 564**

In the event that calculations are required which produce fractions, the number shall be rounded to the nearest whole cent. If less than .5, reduce to the next lower cent. If .5 or more, increase to the next higher cent.

For rating purposes, shipment weights shown in fractions of a pound will be rounded to the nearest whole pound. If less than .5, reduce to the next lower pound. If .5 or more, increase to the next higher pound.

FREIGHT, ALL KINDS (FAK) AND EXCEPTION RATINGS - APPLICATION**ITEM 565**

When tariffs governed by this tariff provide for the application of the same class, rating or rate(s) on commodities generally or commodity groupings, by use of such descriptions as "Freight, All Kinds," "FAK," "Tiered FAK," "Commodities Various," "All Commodities" or words of similar meaning (hereinafter referred to in this item as "FAK"), the conditions outlined below shall apply:

1. When one or more released or actual value provisions are published in NMF 100 Series or ABF 100 Series to apply for any specific commodity tendered for transportation, the lowest released value or the lowest actual value provided therein will apply in all cases.
2. FAK provisions take precedence over other published provisions for the Customer or third party payor, subject to Item 765 of this tariff.
3. When specific reference is made to this paragraph, FAK provisions shall be restricted to apply only in connection with single shipments effectively occupying (see Item 110, Paragraph 14) not more than 1500 cubic feet of a vehicle or doubles trailer.
4. The shipper is required to correctly identify on the bill of lading at the time of shipment the specific commodity(s) tendered for transportation, including those subject to FAK provisions.

In connection with shipments where the shipper fails to correctly identify the specific commodity(s);

- A. The FAK provisions become null and void and otherwise applicable provisions shall apply. Further, ABF Freight is not obligated to rate or transport the shipment until the shipper issues a corrected bill of lading correctly identifying the commodity(s).
 - B. In the event the shipment is inadvertently rated and transported without the commodity(s) being correctly identified, the carrier is relieved of any liability for damage to or destruction of commodity(s) resulting from the loading of the product(s) or commodity(s) on the same trailer with other freight that is either incompatible with or prohibited by applicable federal, state or local laws and regulations from being co-loaded on the same trailer with the commodity(s) moving under FAK provisions.
5. FAK does not encompass those commodities in the NMF 100 Series with a "not taken" or "0" provision or rating.

HANDLING FREIGHT AT POSITIONS NOT IMMEDIATELY ADJACENT TO VEHICLE **ITEM 566**

When requested by the Customer, and ABF Freight's operating conditions permit, ABF Freight may move shipments from or to positions beyond the immediately adjacent loading or unloading positions available to carrier's vehicle.

The provisions of this item include service at Shopping Malls when the actual pickup or delivery site within the mall complex is not immediately adjacent to the loading or unloading positions available to carrier's vehicle.

Service under this item will be provided to floors above or below the level accessible to ABF Freight's vehicle only when elevator or escalator service is available and labor, when necessary to operate same, is provided without cost to ABF Freight.

Charges for points other than the Borough of Manhattan, NY:

Service provided under this item will be assessed a charge of \$11.70 per 100 pounds, but not less than \$110.50 per shipment per trailer, nor more than \$1161.55 per shipment per trailer. When shipments are accorded split pickup, split delivery or stopped in transit for partial loading or unloading, the minimum and maximum charges will apply to each stop separately wherever the service is performed.

Charges for points in the Borough of Manhattan, NY (Zips 10001-10299):

\$28.80 per 100 pounds, but not less than \$132.05 per shipment per trailer, nor more than \$1254.00 per shipment per trailer.

The charges provided in this item will be in addition to all other applicable charges and will be assessed against the payor of the freight charges. If the payor of the freight charges is unable or unwilling to pay for this service, the charges will be assessed against the party requesting the service.

For shipments moving on government bills of lading, the charges will be collected from the U.S. Government.

INDEMNIFICATION**ITEM 568**

For the conditions of this item only, the term "Customer" shall include third party payor, in addition to the consignor (shipper) and consignee.

Customer and ABF Freight, to the extent of their negligence, shall indemnify, defend and hold the other party harmless from and against all direct and valid losses, damages, liabilities, fines, actions and claims for injury to persons and damage to property (including other shipper's cargo, but excluding Customer's cargo), to the extent caused by their negligent acts or omissions in connection with their performance in each instance of transportation, including all direct losses or damages to any property or injury to persons from the party's failure to comply with any applicable laws and regulations concerning the transportation of hazardous materials. Customer shall indemnify ABF Freight under this provision in the event that Customer tenders to ABF Freight any prohibited item for shipment. The party claiming indemnification must provide the indemnifying party with written notice of its indemnification claim in time to contest the determination of any liability and prior to any admittance of any liability, damages, settlement, compromise or discharge of any matter by the party claiming indemnification, and allow reasonable access to any information pertaining to the claim. The indemnifying party or its insurer(s) shall have the right to defend or resolve any claim which may be brought by a third party which a party requests indemnification.

IMPRACTICABLE OPERATIONS**ITEM 570**

Pickup or delivery services will not be performed by ABF Freight at any site for which it is impracticable to operate vehicles because of:

1. The condition of roads, streets, driveways, alleys or approaches thereto;
2. Inadequate loading or unloading facilities;
3. Strikes, labor disputes, riots, acts of nature, the public enemy, the authority of law, the existence of violence, disturbances tending to create reasonable apprehension of danger to persons or property, or any acts beyond the control of ABF Freight.

LIQUOR SHIPMENTS**ITEM 577**

Shipments of any spirituous, vinous, malted or other fermented liquor, or any compound containing spirituous, vinous, malted or other fermented liquor, fit for use as beverage purposes, will not be accepted for transportation, unless the packages in such shipments are accompanied by a copy of the bill of lading or other document showing the name of the consignee, the nature of its contents and the quantity contained therein (see Title 18, U.S.C., Section 1263, as amended September 26, 1968). ABF Freight will not knowingly deliver or cause to be delivered such shipments to any person other than the person to whom it has been consigned unless upon written order in each instance of the bona fide consignee; or to any fictitious person or to any person under a fictitious name (see Title 18, U.S.C., Section 1264, as revised June 25, 1948).

LOADING BY CONSIGNOR-UNLOADING BY CONSIGNEE**ITEM 578**

Rates subject to provisions that require the Customer to load or unload the shipment are subject to the following additional provisions:

1. At time of shipment, a notation must be made on the bill of lading and the shipping order by the consignor, that consignor is to load and/or consignee is to unload the shipment. This requirement will not apply when entire shipment consists of freight in a single container, or freight tendered on pallets or platforms weighing at least 500 pounds or more (loading required by consignor and unloading required by consignee per NMF 100, Item 568).
2. The complete loading and/or unloading of the freight, including the count thereof, must be performed by the Customer at their expense, without requiring any assistance from ABF Freight. ABF Freight's employee and power unit are to be released while loading and/or unloading is performed.
3. The complete loading service includes the loading of the freight on ABF Freight's vehicle and the stowing and arranging thereof. Any temporary stowing components required to protect and make shipments secure for transportation must be furnished by the consignor. The complete unloading service means that the consignee must remove the freight from the position in which it is has been transported.
4. On mixed shipments, when any portion of the freight is required to be loaded (or unloaded) by the Customer as a condition precedent to the application of the rate, the entire shipment must be loaded (or unloaded) by the Customer.
5. In the event the shipment is stopped off for partial loading (or partial unloading), the party or parties tendering or receiving any portion of the shipment will be subject to the same loading (or unloading) requirements.
6. If the Customer refuses to perform the loading (or unloading), the rate will not apply and rates otherwise published will be assessed.

Notwithstanding the above, if requested, ABF Freight will perform loading and/or unloading services subject to the charges below. The payor of the linehaul freight charges shall be liable for the charges for these services. When, under these conditions, ABF Freight performs loading and/or unloading service(s), applicable rates shall be determined as though the Customer had performed such service(s).

Equipment Rate (Note 1)	Linear Foot Rate (Note 2)		Charge for Loading	Charge for Unloading
	Not to Exceed:	Greater Than: Not More Than:		
.50 Pup	0 Feet	14 Feet	\$ 154.73	\$ 154.73
.75 Pup	14 Feet	21 Feet	219.20	219.20
1.00 Pup	21 Feet	28 Feet	283.66	283.66
1.25 Pups			361.03	361.03
1 Van			541.53	541.53

Charges for loading/unloading equipment rates greater than 1.25 pups will be the combined charges of the equipment types, as defined in Item 597-1 herein, needed to achieve the equipment rate. (The charge for two pups shall be two times the charge for loading/unloading a pup, the charge for 1.50 pups will be the charge for loading/unloading a pup plus the charge for loading/unloading 0.50 pups, etc.)

Note 1 – Applies only in connection with shipments moving on equipment rates.

Note 2 – Applies only in connection with shipments moving on linear foot rates.

- 7. Any expense incurred by ABF Freight for loading or unloading service, other than spotting equipment, will be assessed against the payor of the freight charges.

MARKING OR TAGGING FREIGHT - CHANGING MARKINGS OR TAGS

ITEM 580

The provisions of NMF 100, Item 580, will apply; however, at the request of the Customer, ABF Freight shall change or alter the markings or tags on any package or pieces of freight subject to a charge of \$5.20 per package or piece of freight, but no less than \$76.15 per shipment per trailer.

All charges accruing under the provisions of this item must be paid by the party requesting the service or guaranteed to the satisfaction of ABF Freight before the service will be performed.

MAXIMUM WEIGHTS - TL OR VOL

ITEM 596

TL or VOL provisions subject to a maximum weight restriction will apply only to the extent total weight of the shipment does not exceed the maximum weight specified. That portion of a shipment in excess of a stated maximum weight shall be rated as a separate shipment.

MAXIMUM WEIGHTS - PUP OR DOUBLES TRAILER
ITEM 597

Rates or charges stated in units per pup or doubles trailer shall be subject to a maximum weight of 24,000 pounds unless further restricted by weight limitations of state or other regulatory bodies.

The charge for that weight in excess of 24,000 pounds on the same pup or doubles trailer, if any, will be computed at the ratio the applicable pup or doubles trailer charge bears to 24,000 pounds.

EXAMPLE: Shipment weighs 26,000 pounds and is loaded on one pup
 Pup rate is \$1,187.00
 Excess weight is 2,000 (26,000 less 24,000)
 Excess rate is \$4.95 per cwt (1187/240 cwt = 495)

The shipment would be rated:

First	24,000	@ pup rate	\$1,187.00
Excess	2,000	@ 495 cwt	99.00
Total	26,000		\$1,286.00

EQUIPMENT RATES - MAXIMUM SHIPMENT SIZE
ITEM 597-1

Rates or charges stated in units per type of equipment as defined below shall apply only in connection with the portion of the shipment not exceeding *any* of the forms of measurement (Weight, Linear Feet) shown. The overflow portion shall be rated as a separate shipment.

Equipment	Weight (Pounds)	Linear Ft.
.50 PUP	12,000	14
.75 PUP	18,000	21
1.00 PUP	24,000	28
1.25 PUPS	30,000	35
1.50 PUPS	36,000	42
1.75 PUPS	42,000	49
2.00 PUPS	48,000	56

1. Shipments which weigh less than four (4) pounds per cubic foot (actual weight) and which require at least 350 cubic feet of space but less than 750 cubic feet of space will be subject to a minimum charge as follows: Multiply the cubic capacity of the shipment by six (6) pounds for each cubic foot or portion thereof to determine a calculated weight for the shipment. The applicable rate shall be determined from otherwise applicable specific account pricing provisions. However, shipments shall be rated at the Class 77.5 rate in lieu of the actual NMF classification, exception rating or multiple rates.
2. Shipments which weigh less than six (6) pounds per cubic foot (actual weight) and which require 750 cubic feet of space or more will be subject to a minimum charge as follows: Multiply the cubic capacity of the shipment by six (6) pounds for each cubic foot or portion thereof to determine a calculated weight for the shipment. The applicable rate shall be determined from otherwise applicable specific account pricing provisions. However, shipments shall be rated at the Class 150 rate in lieu of the actual NMF classification, exception rating or multiple rates.

On shipments subject to different percentage expressions by commodity, the highest applicable percentage expression shall be used in determining the minimum net charges under this rule.

Conditions and Definitions:

1. The cubic capacity of the shipment shall be determined in accordance with Item 110, Paragraph 14 herein.
2. When this item has application, ABF Freight's freight bill will indicate both the actual weight and the calculated weight used to calculate the minimum charge.
3. The provisions of this item are not applicable in connection with:
 - A. Shipments subject to "EXCLUSIVE USE OF VEHICLE" provisions herein.
 - B. Notwithstanding "Capacity Load" shipments, any portion of shipments subject to rates stated in units per mile or per piece of linehaul equipment. However, this item will apply for that segment of the shipment that is considered overflow and rated as a separate shipment.

- A. arbitraries,
- B. pickup and/or delivery,
- C. special service charge(s), and
- D. any other charge(s) stated separate from the line-haul transportation charge(s).

MIXED SHIPMENTS - LTL (Exception to NMF 100, Item 640)**ITEM 640**

When a number of differently described articles are shipped as a mixed shipment, the charges on the shipment will be determined as follows:

1. Each article packaged separately and listed separately (on the bill of lading) by weight will be rated using its actual weight and applicable rate. The total shipment weight will be used to satisfy any minimum weights. Any deficit weight will be rated at the lowest rate applicable to any article in the shipment.
2. When two or more different articles are in the same package, and are listed separately on the bill of lading by weight, each article will be rated using its actual weight and applicable rate. Any deficit weight will be rated at the lowest rate applicable to any article in the shipment.
3. When one or more articles are not accurately identified on the bill of lading, the shipment shall be rated at the applicable class shown below based upon the density of the total shipment. Density shall be calculated by dividing the total weight of the shipment by the total cubic feet of the shipment.

Density (in PCF)	Class
Less than 1	400
1 but less than 2	300
2 but less than 4	250
4 but less than 6	150

30 or greater	60

4. When packages are shipped in, or unitized on pallets, platforms or skids, provided the packages are properly described to allow for proper rating, the weight of the pallet, platform or skid will be charged at the lowest rate applied to any article in the shipment, if the weight of such device is separately shown on the bill of lading.

OVER-DIMENSION FREIGHT**ITEM 670**

Shipments containing one or more articles that equal or exceed 14 feet in length will be subject to a charge of \$130.00 per shipment per trailer in addition to all other applicable charges.

ABF Freight is not obligated to pick up or transport shipments containing one or more articles that exceed 27 feet in length. If ABF Freight inadvertently picks up a shipment containing one or more articles that exceed 27 feet in length, ABF Freight has the discretion of returning the shipment to the Shipper. If ABF Freight transports the shipment, the charge will be \$2750.00 per shipment in addition to all other applicable charges.

The charges in this item will not apply on shipments that are subject to:

3. LOADING BY ABF FREIGHT:

Freight tendered for loading shall be placed by the consignor as to be directly accessible to the vehicle or it shall be immediately adjacent to a parking space suitable for ABF Freight to place its vehicle for loading (see Note 1). Such charges will be assessed against the payor of the freight charges and are in addition to applicable detention charges. If the payor of the freight charges is unable or unwilling to pay for this service, the charges will be assessed against the party requesting the service.

If ABF Freight's driver is prohibited from witnessing the unloading process to verify damages or shortages, ABF Freight shall be relieved from claims liability.

7. WAIVER OF DELIVERY RECEIPT:

When consignor or owner has made written arrangements with ABF Freight, freight consigned to construction sites (or other places where no representative of the consignee is present or available to receipt for the shipment) will be delivered and unloaded by ABF Freight and left unattended at the place designated.

8. MORE THAN ONE LOADING OR UNLOADING SITE:

Upon request of the consignor or consignee, pickup or delivery service as defined in this item may be performed at more than one loading or unloading site within the continuous plant property or premises of the consignor or consignee requesting this service, provided the loading or unloading sites are not intersected by more than one public thoroughfare. A vehicle transfer charge of \$83.80 per shipment per trailer will be assessed for each transfer of the vehicle from one loading or unloading site to another.

9. HEAVY OR BULKY FREIGHT-LOADING OR UNLOADING (Exception to NMF 100 Series, Item 568): (See Note 3)

When freight (per package or piece) in a single container, or secured to pallets, platforms, or lift truck skids, or in any other authorized form of shipment:

- A. Weighs 500 pounds or less, ABF Freight will perform the loading and/or unloading where a dock, platform, or ramp is directly accessible to ABF Freight's vehicle, except as provided in Paragraph C. Regardless of weight, if there is no dock, platform or ramp provided, the Customer will be responsible for the loading or unloading. On request, the ABF Freight driver will assist.
- B. Weighs 500 pounds or more, the Customer will perform the loading or unloading. On request, the ABF Freight driver will assist.
- C. Regardless of weight, the Customer will be responsible for the loading or unloading when:
 - (1) Freight exceeds 22 feet in any dimension
 - (2) Freight exceeds 10 feet in its greatest dimension and exceeds 1 foot in any other dimension.
 - (3) Freight exceeds 8 feet in its greatest dimension, with any other dimension exceeding 2 feet.
 - (4) Freight exceeds 4 feet in any two dimensions.

Note 1 - Freight shall be deemed to be immediately adjacent to a space suitable for ABF Freight to place its vehicle for loading or unloading if separated therefrom only by an intervening public sidewalk. If a parking space suitable for ABF Freight to place its vehicle for loading or unloading is occupied or city ordinance prevents its use, the nearest available parking space may be used.

When two or more shipments are placed by the shipper as close as practicable to a parking space suitable for ABF Freight to place its vehicle for loading, all such shipments will be considered as immediately adjacent thereto, even though the shipment or shipments that were closest to such parking space were picked up first by the same or different motor carrier.

When shipper assigns to two or more carriers designated spaces in its shipping room or loading platform where outgoing freight will be placed by the shipper for pickup by the designated carriers and all of such assigned spaces are as close as practicable to a parking space suitable for carrier to place its vehicle for loading, all such assigned and designated spaces will be considered immediately adjacent to such parking space.

Note 2 - The provisions of this paragraph will not allow for the opening of packages or unitized shipments, including shrink-wrapped or banded freight on pallets or skids.

Note 3 - Loading by definition in Paragraph 9 of this item includes stowing and counting of the freight in or on ABF Freight's vehicle(s). Unloading by definition in Paragraph 9 of this item includes the counting and removing of the freight from the position in which it is transported in or on ABF Freight's vehicle.

PRIORITY OF PRICING--ORDER OF PRECEDENCE**ITEM 765**

Where different types of pricing could apply to the same shipment, the following order of precedence will apply:

1. TimeKeeper (TK) (supersedes all other pricing). To the extent different time sensitive pricing could apply to a single shipment, the following order of precedence will apply:
 - A. TimeKeeper Quote ID
 - B. Specific Account Pricing published in ABF 610
 - C. General TimeKeeper pricing as outlined in ABF 610, Item 2000
2. Volume Price Quote (VPQ) (supersedes all other pricing except TK)
3. Paying party. When pricing is applicable for more than one party on a freight bill (e.g., Shipper, Consignee or Third Party), the pricing applicable for the payor of the freight charges will apply.
 - A. When the Third Party (TP or TPB) is Payor.
 - (1) Use the TP's applicable pricing when true third party conditions as provided in Item 429 of this tariff, or the following, exist.
 - (a) For prepaid shipments, if the TP and shipper are separate majority owned subsidiaries of the same parent company or the TP is a subsidiary of the shipper.
 - (b) For collect shipments, if the TP and consignee are separate majority owned subsidiaries of the same parent company or the TP is a subsidiary of the consignee.
 - (2) When there is no applicable pricing package for the TP payor, use the following:
 - (a) Prepaid shipments. Use the shipper's applicable pricing.
 - (b) Collect shipments. Use the consignee's applicable pricing. If none, use the shipper's applicable pricing.

- (3) When the following conditions exist, TP pricing will only apply as provided in Paragraph 3(B) (prepaid) or 3(C) (collect), below:
- (a) The TP and the shipper or consignee are the same company and are assigned the same account code number.
 - (b) The TP is the majority owner of the shipper or consignee.
- B. When the Shipper is payor. Use shipper's applicable pricing. If none, and there is a shipper or majority owner of shipper "Send Freight Bill To Party" (SFB) location shown on the bill, use the SFB's applicable third party pricing.
- C. When the Consignee is payor. Use the consignee's applicable pricing. If none,
- (1) And there is a consignee or majority owner of consignee SFB location shown on the bill, use the SFB's applicable third party pricing.
 - (2) Use the shipper's applicable pricing, except as provided in "(1)" above.
- D. When, in the applicable pricing package, there is more than one price that covers the shipment, the following order of precedence shall apply:
- (1) Contract (supersedes tariff pricing).
 - (a) Provisions applicable to LTL shipments based on a price per pallet, per piece, or some other containerized unit, will take precedence over and will not alternate with other applicable LTL provisions. Non-containerized commodities in the same shipment will be rated using otherwise applicable LTL provisions.
 - (b) "Freight, All Kinds" provisions applicable to LTL shipments will take precedence over and will not alternate with other applicable LTL provisions.
 - (c) Apply lower of payor's LTL or TL pricing.
 - (2) ABF Freight Individual Tariffs filed in the ABF Freight General Office or with the Surface Transportation Board (is superseded by contract pricing).
 - (a) Provisions applicable to LTL shipments based on a price per pallet, per piece, or some other containerized unit, will take precedence over and will not alternate with other applicable LTL provisions. Non-containerized commodities in the same shipment will be rated using otherwise applicable LTL provisions.
 - (b) "Freight, All Kinds" provisions applicable to LTL shipments will take precedence over and will not alternate with other applicable LTL provisions.
 - (c) Apply lower of payor's LTL or TL pricing.
- E. When the payor's pricing includes exceptions or non-application provisions, such exceptions or non-application provisions may not cause alternation to a non-payor's pricing. Instead, the payor's pricing, notwithstanding its inapplicability to a given shipment because of such exceptions, will serve as the payor's pricing package and prohibit use of non-payor pricing (the provisions of this sub paragraph will apply but are not limited as shown in the following examples):

Examples:

Pricing published to apply for a non-payor will not apply as an alternate to the application of the payor's pricing, when:

- (1) Payor pricing is restricted by geographic area, but non-payor's pricing is not similarly restricted.
 - (2) Payor pricing has no discount on minimum charge, selected rate scales (minimum weights) or joint line restrictions, but the non-payors pricing is not similarly restricted.
 - (3) Payor pricing is made not applicable under Item 151 of the tariff, but the non-payor's pricing is exempt from one or more of the provisions of Item 151.
4. When an account performs services for which an allowance as defined in Item 315 herein may apply, such allowance will not be subject to the provisions of Paragraph 3, above, and will be in addition to otherwise applicable pricing. Allowances will not apply to shipments that are rated under TimeKeeper® or Volume Quotes referred to in Paragraphs 1 and 2 above.

3. shall not be applicable on special service charges or fuel surcharge.
4. shall apply only when ABF Freight receives all applicable freight charges within 30 days of:

Unless otherwise provided in the applicable Specific Account Pricing provisions, rules or charges contained within Specific Account Pricing provisions will apply in lieu of the same rules or charges published in this tariff.

LIABILITY LIMITATIONS
(Subject to Notes 1, 2, 3 & 4)**ITEM 780-1****Part A: Cargo Loss & Damage Claims**

ABF Freight will assume liability for cargo loss and damage claims under the federal laws applicable to common carriage in effect on the date of the shipment and the terms and conditions of the Uniform Straight Bill of Lading (ABF International Bill of Lading, the applicable Canadian Bill of Lading or Mexican law when applicable), except as shown herein, or to the extent otherwise specifically outlined in participating tariffs. ABF Freight's liability for cargo loss and damage begins upon signing the receipt or bill of lading for property it receives for transportation.

ABF Freight will investigate and dispose of cargo loss and damage claims under common carrier provisions as set forth in 49 C.F.R. Part 370, and STB NMF 100 Series, Items 300100 through 300155. Any and all cargo claims must be filed against ABF Freight within nine months after the delivery of the property (or, in the case of export traffic, within nine months after delivery at the port of export), except that claims for failure to make delivery must be filed within nine months after a reasonable time for delivery has elapsed. When claims are not filed within the prescribed time limits such claims shall be barred and not paid.

Any lawsuits for cargo claims shall be instituted against ABF Freight no later than two years and one day from the day when written notice is given by ABF Freight to the claimant that it has disallowed the claim or any part or parts of the claim specified in such notice. Where claims are not filed or lawsuits instituted thereon in accordance with the foregoing provisions, ABF Freight shall not be liable and such cargo claims will not be paid.

In no event shall ABF Freight be liable for any claim based upon any item which is a prohibited article as defined in Item 780 herein whether or not knowingly accepted for transport by ABF Freight.

Section 1 - Liability Limitations

Except as otherwise specifically provided herein, or modified to the extent specifically outlined in participating tariffs, in the event of loss of and/or damage to any shipment, ABF Freight's liability will not exceed the lesser of:

1. the actual value of the article(s)
2. the lowest released value provided in ABF 100 Series or in STB NMF 100 Series (Note 3)
3. the maximum per pound per lost or damaged package outlined in Table A herein, for the weight of each article tendered on the shipment. Maximum liability will be derived from the actual class of the article tendered (as published in ABF 100 Series or in STB NMF 100 Series); or derived from the applicable FAK or class exception rating if charges are determined by application of an FAK or class exception rating
4. \$100,000 per shipment
5. any general statutory or regulatory domestic or international cargo liability limitations

TABLE A

Class/FAK	Maximum Liability *	Class/FAK	Maximum Liability *	Class/FAK	Maximum Liability *
50	\$ 2.00	85	\$15.00	175	\$25.00
55	\$ 2.00	92.5	\$20.00	200	\$25.00

77.5	\$10.00	150	\$25.00	500	\$25.00

* Maximum liability is per pound per lost or damaged package.

Section 2 - Optional Excess Liability Coverage

Except to the extent otherwise outlined in subsequent Sections herein, or to the extent otherwise specifically outlined in participating tariffs, Shipper may request ABF liability coverage in excess of the limits outlined in Section 1 above (or \$100,000 per shipment, whichever is lower), by indicating in writing in the section or box designated "Kind of Package, Description of Articles, Special Marks and Exceptions," or some similarly marked area of the bill of lading, at time of shipment the total dollar amount of excess coverage requested (See EXAMPLE) or by stating therein "Excess Liability Requested" when Declared Value is shown elsewhere on the bill of lading. Excess coverage will be applied on a per pound per package basis. The maximum excess liability is \$150,000 per shipment, for a total of \$250,000 when added to the initial maximum coverage. However, excess liability coverage will not apply on:

1. Articles specifically named in Section 1 of Item 780 herein.
2. Articles with actual, declared or released values as described in ABF 100 Series or in STB NMF 100 Series.
3. Any amount that exceeds the actual value of the goods.

ABF Freight will assess an additional charge of 3% of the requested excess coverage in excess of the initial maximum liability, subject to minimum excess coverage charge of \$75.00. Such charge is in addition to all other lawful freight charges. Charges are to be paid by the party responsible for payment of the otherwise applicable freight charges. Excess liability coverage is not and will not be considered as insurance. Excess liability coverage will only apply to shipments that meet the provisions outlined in the bill of lading contract, including the minimum packaging requirements, as provided in the NMFC 100 Series. Carrier has the right to refuse ELC where Carrier deems the cargo unsafe to transport.

EXAMPLE: Shipper requesting \$10,000 additional excess coverage would enter on the bill of lading as follows:

"\$10,000 excess liability coverage requested"
- or -
"Excess liability coverage requested: \$10,000."

Note: A statement of value (such as a "declare value") without an express request for excess liability coverage will not increase ABF Freight's liability, and charges for excess liability coverage will not be assessed.

Section 3 - Liability--Other Than New Commodities

All commodities other than new, when accepted and transported by ABF Freight, will be subject to a maximum liability of \$0.10 per pound per lost or damaged package unless the shipper has requested excess liability coverage, as provided in Section 2 herein. The maximum liability assumed by ABF Freight will not exceed \$5.00 per pound per lost or damaged package.

In order for a shipment containing commodities other than new to be eligible for excess liability coverage as allowed for in the Sections of Item 780-1, the shipment must be packaged so as to meet the minimum packaging requirements as provided for the commodity or commodities in the NMFC 100 Series.

Failure of the shipper to declare that a commodity is "other than new" shall not alter the application of this item.

Section 4 - Volume Price Quote Liability

ABF Freight's liability for loss of and/or damages to Volume Price Quote shipments, as further defined in Items 597 and 597-1, will be governed by the terms of the Volume Price Quote, not to exceed the actual value of the cargo. In cases where ABF Freight's liability is not established by the terms of the Volume Price Quote, ABF Freight's liability will not exceed the lesser of:

In the event of loss of and/or damage to any shipment, ABF Freight's liability will not exceed \$2.00 Canadian per pound computed on the total weight of the lost or damaged goods tendered by the shipper, unless the shipper has requested excess liability coverage and has indicated the amount of excess liability coverage on the original bill of lading in the manner defined in Section 2 herein.

A statement of value (such as a "declared value") without an express request for excess liability coverage will not increase ABF Freight's liability, and charges for excess liability coverage will not be assessed.

When the shipper requests a specific amount of excess liability coverage on the original bill of lading, ABF Freight will assess a charge of 3% of the requested excess coverage, in excess of the initial maximum liability of \$2.00 Canadian per pound for weight of shipment, subject to a minimum excess coverage charge of \$75.00, in addition to all other charges. See example in Section 2 herein. Unless specifically requested in Canadian dollars, charges and excess liability limits will be based on U.S. dollar amounts. Shippers requesting cargo protection in Mexico that exceeds \$0.50 per pound, when accepted and transported by ABF Freight, will also be subject to a 15% deductible. The maximum liability is \$100,000 per shipment.

ABF Freight assumes no liability on the Mexico portion of the transportation on shipments of fresh fruits, plants, flowers, explosives, and corrosive chemicals.

Section 7 - TimeKeeper® Liability

Except as otherwise specifically provided, ABF Freight's liability for TimeKeeper shipments will be limited by the provisions outlined in the Sections herein.

However, in cases where a TimeKeeper shipment shall not move entirely within ABF Freight's own shipping network to achieve the requested service, ABF Freight's liability shall be limited to \$0.50 per pound per lost or damaged package.

In addition, commodities subject to one or more released or actual value provisions as published in NMF 100 Series or ABF 100 Series for any specific commodity tendered for transportation shall be released to the lowest released value or the lowest actual value provided therein, not to exceed the limitations provided herein.

Optional Excess Liability Coverage is available as outlined, and must be requested in the manner required, in Section 2 herein.

Section 8 – No Longer Applicable.**Section 9 - Introductory Price Quote Liability**

ABF Freight's liability for loss of and/or damages to a shipment moving under an Introductory Price Quote will be governed by the terms of the Introductory Price Quote, not to exceed the actual value of the cargo. In cases where ABF Freight's liability is not established by the terms of the Introductory Price Quote, ABF Freight's liability will not exceed the lesser of:

- A) \$1.00 per pound per lost or damaged package
- B) \$0.10 per pound per lost or damaged package for any items that are not new

However, excess liability cannot exceed \$25.00 per pound per lost or damaged package.

Section 11 - Ocean Liability

Except as otherwise specifically provided, ABF Freight shall not be liable for any loss or damage to, or in connection with, the ocean transportation of goods in an amount exceeding \$500 per package, or in case of goods not shipped in packages, per customary freight unit.

Section 12 – Secure Shipment Dividers Liability

ABF Freight's liability for loss of and/or damages to a shipment moving with a secured shipment divider will be limited by the provisions outlined in Sections herein, except that ABF Freight's liability will be further limited to the lesser of \$2.00 per pound per lost or damaged package, or \$10,000 per shipment, unless the shipper has requested excess liability coverage, as provided in Section 2 herein. However, excess liability cannot exceed \$25.00 per pound per lost or damaged package.

When a number of packages have been unitized, strapped or otherwise fastened together, or contained on pallets, platforms or skids, or have been overpacked in an additional complying package, ABF Freight's liability will be determined by separately multiplying the weight of each individual package lost or damaged "times" the applicable per pound per package liability as set forth herein and not on the basis of the weight of the total number of packages unitized, strapped or otherwise fastened together or contained on pallets, platforms or skids, or overpacked in an additional complying package.

Note 2 - The provisions of this item will also apply on export or import shipments.

Note 3 - Where the shipper fails to notate a released value on the original bill of lading and an article(s) is rated at the class provided for the lowest released value, as required by Item 420 of ABF 111 Series, ABF Freight's liability may not exceed the value resulting from such released value, subject to all other liability limitations herein.

Note 4 - Where the shipper fails to properly describe the freight on the original bill of lading, or uses a description "FAK" or "Freight All Kinds" or words of similar meaning, that does not properly identify the commodities shipped, subsequent claims for shortage or damage will be based on the lowest value of any commodity contained in the shipment.

SPECIAL PICKUP OR DELIVERY EQUIPMENT**ITEM 959**

ABF Freight will pickup or deliver freight using the equipment it uses for normal pickup and deliveries (28 foot trailers), and as needed, equipment it usually reserves to transport freight over the highway (28 foot trailers). When for any reason, ABF Freight must provide equipment other than the equipment mentioned herein (use of a flatbed trailer or use of a non 28 foot trailer are examples of such special equipment), the charge herein shall apply in addition to all other applicable charges. Charges will be assessed against the payor of the freight charges. If the payor of the freight charges is unable or unwilling to pay for this service, the charges will be assessed against the party requesting the service.

ABF Freight is not obligated to perform this service where suitable equipment or operators are unavailable, nor at locations inaccessible to our vehicles, or where the safety of our vehicles or personnel is jeopardized.

At locations where ABF Freight does not maintain suitable equipment, any and all expenses ABF Freight incurs for outsourcing material and/or equipment necessary to perform the service shall be assessed and collected from the party requesting this service.

The charge for the services referred to herein, including transfer of lading to or from line haul equipment, shall be \$10.80 per 100 pounds of actual weight, but not less than \$350.00 nor more than \$900.00 per shipment per piece of special equipment.

TERMINAL CROSS-DOCK HANDLING**ITEM 960**

When a Customer or another carrier requests that an ABF Freight facility cross-dock a shipment, a fee of \$6.70 per 100 pounds, but no less than \$60.30 per shipment, shall apply.

Charges will not apply on any shipment where ABF Freight provides linehaul or performs pickup or delivery.

**TRANSPORTATION OF HAZARDOUS MATERIALS OR SUBSTANCES
(Subject to Notes 1 - 3)****ITEM 973**

ABF Freight may accept shipments of hazardous materials or substances, as described in Title 49 CFR, for transportation in accordance with the transportation requirements of the U.S. Department of Transportation, subject to the following provisions:

1. Shipments of hazardous materials or substances will be subject to the following requirements:
 - A. Shipments of hazardous materials or substances which are delayed at any time due to restrictions imposed by any shipper, consignee or regulatory agency will be subject to a delay-in-transit charge of 200% of the storage charges published in Item 910 of this tariff. Such charges will begin at the time the shipment is delayed and continue until such time as transportation can be resumed or the shipment delivered to the consignee. Charges also apply on shipments delayed, by refusal or otherwise, at destination by consignee and begin upon Notice of Arrival (Item 345 of this tariff) to consignee.
 - B. The accrued charges will be collected from the party responsible for the delay or if delayed by a regulatory agency, charges will be collected from the shipper or party requesting movement of the shipment.

The carrier shall maintain a record of all such shipment and vehicle delays, including the arrival and departure times at points where delays occur and name of party responsible for such delays.

2. If required by federal, state or local regulations, ABF Freight will prepare designated route plans which will set forth the routes to be utilized in transporting shipment of hazardous materials or substances from the initial origins to the final destinations. The designated route will be the shortest practical route over the highways approved by the appropriate state or local agency for the transportation of hazardous materials or substances and any interstate highway not disapproved by a state or local agency with enforcement authority. If the total distance from the initial origin to the final destination via the designated route of movement exceeds 115% of the shortest mileage from initial origin to final destination, the distance in excess of 115% will be charged for at the rate of \$12.06 per mile per vehicle. All mileage shall be computed by use of Household Goods Carrier's Bureau, Agent, Mileage Guide (HGB 100 Series).
3. When special permits authorizing the transportation of specific shipments of hazardous materials or substances are required by federal, state or local regulations, the purchase costs of such permits will be paid by ABF Freight and collected as follows:
 - A. The purchase costs of such permits, plus a service charge of \$41.25 per permit, per state in which a permit is procured, shall be collected from the shipper or party requesting movement of the shipment.
 - B. Except for the service charge for each permit required, evidence of payment of all permit charges shall be furnished to the shipper or party requesting movement of the shipment upon request.
4. Any notation on the bill of lading which in any way limits or denies ABF Freight access to the vehicle in which the shipment is loaded shall be deemed by ABF Freight to require Exclusive Use of Vehicle services in accordance with the provisions of Item 525 herein.
5. Shipments containing Hazardous Materials, as described in Title 49 CFR, will be subject to an additional charge of \$38.80 per shipment per trailer in addition to all other applicable charges.

Any fines, costs and/or penalties which are imposed on ABF Freight as a result of the Shipper's failure to meet D.O.T. requirements will be charged back to the Shipper who shall reimburse ABF Freight for losses incurred.

Note 1 - Nothing in this rule shall obligate carrier to transport shipments beyond the scope of their operating certificates or in violation of any law, regulation or ordinance.

Note 2 - Provisions of this Item do not apply on "HAZARDOUS WASTE(S) and/or WASTE MATERIAL" due to absence of carrier permit to transport such commodities.

Note 3 - Shipments containing hazardous materials or substances will not be accepted under ABF Freight TimeKeeper® service unless the Customer or third party payor provides full disclosure and prearranges with ABF Freight. Complete disclosure of the commodity being shipped must be made during the quotation process and the proper description must be included on the original bill of lading at time of tender to carrier.

If ABF Freight inadvertently accepts a shipment under the TimeKeeper program that fails to meet the above conditions, the TimeKeeper program including the service guarantee therein, shall be null and void. Further, any and all liability for damages resulting from the hazardous material shall be borne by the Customer.

TRANSPORTATION TAX, INTRASTATE SHIPMENTS

ITEM 975

State taxes on transportation charges for intrastate shipments will be included on the carrier's freight bill and collected from the payer of the freight charges.

UNCLAIMED/ABANDONED FREIGHT**ITEM 980**

Freight that is undeliverable due to error or omission on the part of the shipper, consignee, or owner or for which no disposition instructions have been provided shall be considered unclaimed/abandoned. Freight will also be deemed unclaimed/abandoned when Carrier has been instructed to hold freight at its dock for pick-up and such freight is not picked up within 10 days of arrival and no further disposition instructions have been received. Carrier may dispose of or sell by public or private sale or discard in a landfill or dumpsite any unclaimed/abandoned freight at its sole discretion.

Disposition of Property

Carrier shall have a lien on all unclaimed/abandoned freight for all freight charges, storage and handling charges incurred and may sell or dispose of such property in order to satisfy or partially satisfy the lien. The following provisions apply:

- A. **Non-perishable Freight**-Upon notification of arrival, if a shipment containing non-perishable property is unclaimed and delivery cannot be effected, the carrier will so notify the proper parties as shown on the Bill of Lading by telephone, mail or electronic communication. If notification is sent by mail, the notice will be considered to have been given the first business day after it was mailed. Upon written instructions from the shipper, the carrier will return the shipment to the shipper, reconsign or otherwise dispose of it, all at the shipper's, consignee's or owner's expense. If no such instructions are received within 10 days after the date of notification, the carrier will dispose of the freight by public or private sale or discard in landfill or dumpsite with no further liability to the carrier in accordance with the NMFC Uniform Bill of Lading.
- B. **Perishable Freight**-When a perishable shipment is delayed while in the possession of the carrier, or is unclaimed or refused and is threatened with deterioration, Carrier shall have the right to take such action as it deems reasonably necessary for the protection of all parties of interest, including rerouting the shipment by other means of transportation, or disposal of the shipment at public or private sale, absent instructions of Shipper to the contrary with no further liability to Carrier. Carrier shall make all reasonable effort to give notice prior to said sale or disposal to the proper parties as shown on the Bill of Lading by telephone, electronic mail or facsimile communication.
- C. **Shipper and Consignee Remain Liable**- No sale or disposal pursuant to this rule shall discharge any liability of lien to any greater extent than the proceeds thereof, less selling expenses if any, and the shipper, consignee, and owner shall remain liable, jointly and severally for any deficiency. In all cases, shipper, consignee, and owner are responsible for all freight and storage charges regardless of freight disposition.
- D. **Storage Charges**-Undelivered shipments will be subject to the applicable storage charges. See ABF Tariff 111, item 910.
- E. **Dumping Charge**-Undamaged Freight that is refused for reasons not caused by Carrier that, due to quantity, must be disposed of in a landfill or dump site will be assessed a charges of \$116.59 per shipment in addition to charges assessed by the landfill or dump site.
- F. **Sales Fee**-When unclaimed/abandoned freight is sold at public or private sale, a fee of \$347.44 per shipment will apply to cover handling, administration, and other associated costs.

TRAILER FURNISHED BUT NOT USED**ITEM 985**

When ABF Freight, upon receipt of a request to pick up a shipment, has dispatched a driver and trailer for such purpose, and through no fault of ABF Freight, the trailer is not used, a charge of \$146.94 per day (or fraction thereof) per trailer, will be assessed against the consignor making such request. Accrual of these charges will terminate when ABF Freight is notified that the trailer will not be used.

ADVANCE WAREHOUSE SERVICE**ITEM 986**

When ABF Freight acts as the warehouse for exposition freight that is either tendered at the ABF Freight dock by another carrier, or transferred by ABF Freight from the exposition facility to the ABF Freight dock for future tender to another carrier, a charge of \$6.53 per cwt subject to a minimum of \$12.95 per shipment will apply. The charge provided in this item will include warehousing (trapping) the freight at an ABF Freight facility, storage and pickup from, or delivery to, an exposition facility. Provisions of this item apply only when the ABF Freight terminal where the freight is dropped also is the ABF Freight terminal that delivers the freight to the exposition facility; or when the ABF Freight terminal performing the exposition facility pickup is the dock from which the freight will be tendered to another carrier.

Storage charges for trapped freight or freight moving between shows will not begin until 12:01 a.m. on the thirtieth business day after freight has been received and will thereafter be subject to all terms conditions and charges of Item 910 (Storage).

This charge will apply in addition to charges for any drayage services or equipment rental that may be required.

WATERBORNE TRAFFIC - General Provisions**ITEM 988**

Rates and charges in tariffs governed hereby do not include pickup, delivery, loading or unloading service at piers, docks, transit sheds, steamship terminals, or wharves on export, import, coastwise or inter-coastal traffic.

Pickup or delivery service on such traffic, which includes loading or unloading charges of the longshoremen, stevedores or public loaders shall be subject to the rates and charges below and shall be in addition to all other charges applicable to the shipment.

All charges below applying on export shipments must be prepaid, to the extent outlined in Item 771 of this tariff.

Loading and unloading services at piers, docks, transit sheds, steamship terminals or wharves are performed by longshoremen, stevedores, or public loaders at rates and charges on file with the Federal Maritime Commission.

When requested, unloading of an ocean container may be performed by ABF Freight at the ABF Freight local terminal in lieu of the pier, dock, transit shed, steamship terminal or wharf. The services, to the extent requested, may include pickup of the container and movement to the ABF Freight terminal serving the port, unloading of the container, and the return of the empty container to the port. The charges, as outlined herein, for such services will be in addition to all other lawful charges and will be collected from the party requesting this specific service.

Pickup of the container at the pier, dock, transit shed, steamship terminal or wharf, and subsequent return of the container:

\$518.20 per container

Unloading of the container at the ABF Freight terminal serving the port:

- \$259.08 per ocean container of less than 40 linear feet, when all freight is palletized
- \$414.53 per ocean container of 40 linear feet or greater, when all freight is palletized
- \$518.20 per ocean container of less than 40 linear feet, when freight is not palletized
- \$932.72 per ocean container of 40 linear feet or greater, when freight is not palletized

When the Customer makes arrangements directly with the terminal operator or the piers, docks, transit sheds, steamship terminals or wharves for payment of the pier charges, the charges below shall not apply. The notation, shown below, must be placed on the bill of lading by the consignor:

“Arrangement made with pier operator to bill shipper or consignee directly for pier loading or unloading charges.”

LTL or AQ shipments consigned to one consignee at one port may, upon arrival or prior to arrival at ABF Freight's terminal serving the port, be divided into separate shipments for delivery to piers, docks, transit sheds, steamship terminals or wharves. These shipments shall be assessed charges based on a combination of charges applicable to and from the port city involved. The revised billing shall be sent to and paid by the party requesting this service. This service will not be given if delivery has been made according to original billing.

Charges named herein will not apply when shipment(s) is delivered in trailer(s) without transfer of the lading **to** the ocean carrier(s). The receipt of the trailer(s) by the ocean carriers shall terminate ABF Freight's delivery service and liability. Charges below will not apply when shipment(s) is received in trailer(s) without the transfer of lading **from** the ocean carrier(s). The receipt of the trailer(s) by ABF Freight shall constitute the beginning of ABF Freight's service and liability.

When freight can only be loaded or unloaded by the terminal operator through use of “rigging or special equipment,” ABF Freight will advance the charges of the terminal operator necessary to effectuate the loading or unloading of its vehicle.

All advanced charges shall be collected from the Customer.

All shipments, for export, not directly consigned at origin to an export pier dock, pier terminal, transit shed or wharf will be subject to the reconsignment or diversion charges published in Item 820 herein.

The additional charges assessed to ABF Freight by port terminal operators for services rendered on shipments moving for export and/or import via marine port terminals will be advanced under the provisions of Item 300, herein. Such charges will not be absorbed by ABF Freight and are in addition to the lawful charges otherwise accruing to the shipment.

SHIPMENT WEIGHING, REWEIGHING AND WEIGHT VERIFICATIONS**ITEM 992**

1. At its sole discretion, ABF Freight may choose to weigh or reweigh shipments in its custody and may correct the billed weight and assess proper freight charges accordingly. Such weighing or reweighing may be conducted with scales owned by ABF Freight, including platform scales or lift truck scales with a manufacturer's specified tolerance of plus or minus 1%. The accuracy of such scales will be regularly verified by ABF Freight. When the total freight charges (including accessorials and fuel surcharge) are increased or reduced by \$15.00 or more as a result of weight or weight and classification changes, a \$31.00 weight adjustment fee will apply in addition to all other charges.
2. Upon request by the consignor, consignee or third party payor, the carrier will weigh or reweigh any shipment or vehicle(s) on carrier scales. Such weighing or reweighing will only be made while shipment is in the possession of ABF Freight. A charge of \$46.25 per shipment per vehicle will apply for this service and such charge(s) shall be paid by the party requesting the service. If any error in the weight is determined, the billed weight will be corrected accordingly.

When the consignor tenders ABF Freight a shipment where the bill of lading clearly does not provide an accurate shipment weight (including when '1 lb' is shown; or when no weight whatsoever is provided), ABF Freight will weigh the shipment on carrier scales at ABF Freight's convenience, subject to a charge of \$46.25 per shipment per vehicle in addition to all other applicable charges.

3. When ABF Freight is requested to secure a certified public scale weight for any shipment or vehicle(s), a charge of \$160.34 will be made by ABF Freight for each weighing or reweighing obtained in addition to the fee assessed ABF Freight for use of the certified public scale. Such charge(s) shall be paid by the party requesting the service.
4. When Customer requests ABF Freight to weigh or reweigh a vehicle both empty and loaded, the above charge in Paragraphs 2 or 3, as the case may be, will be made for each separate weighing.

WEIGHT RECEIPT, CERTIFIED**ITEM 993**

When ABF Freight is required to provide consignee with a weight certificate as a condition of performing delivery, a weight certification fee of \$31.00 per shipment shall be assessed in addition to all other charges. This charge will be assessed against the payor of the freight charges.

WEIGHTS - OVERWEIGHT FINES AND RELATED EXPENSES**ITEM 994**

When the shipper's bill of lading does not provide an accurate shipment weight, the following will apply:

1. Item 992 of ABF 111 Series will apply.
2. The following charges will be assessed against the shipper and will be in addition to all other applicable charges:
 - A. The total actual costs of any resulting fines assessed against ABF Freight.
 - B. When ABF Freight's driver and/or equipment is delayed by state, federal or other regulatory authorities, a charge for the total delay time shall be assessed at the rate of \$183.65 per hour or fraction thereof, subject to a minimum charge of \$183.65.
 - C. When it is required that the contents of the equipment be rearranged, unloaded, reloaded, or transferred to other equipment, a charge for the total time (see Note 1) spent in performing these functions shall be assessed as follows:

Days — Hours	Per employee, per hour or fraction thereof	Minimum Charge per Employee
Monday through Friday (Except Legal Holidays) 8:00 a.m. to 5:00 p.m.	\$ 165.72	\$ 165.72
Monday through Friday (Except Legal Holidays) 5:00 p.m. to 8:00 a.m.	249.12	249.12
Saturday, Sunday and Legal Holidays	249.12	1365.53

Note 1 - Total time shall be computed from the time the employee(s) is dispatched from ABF Freight's terminal facility until the employee(s) arrives back at ABF Freight's terminal facility after having performed the requested function(s).

WEIGHTS - GROSS WEIGHTS (Charges on Gross Weights)
(Subject to Note 4)

ITEM 995

- Charges shall be computed on gross weights, including any pallets or other shipping containers, but not including any temporary stowing components or materials that equate to 3% or less of the total weight of the shipment. The weight of such materials in excess of 3% of the total weight of the shipment will be charged for at the lowest rate applicable on any article in the shipment.
- Subject to Notes 1, 2, and 3, when freight which moves on rates subject to a minimum weight of 20,000 pounds or more is prepared for shipment in conformity with packing requirements and, in addition, is loaded on pallets, with or without sides or ends, but without tops, no charge will be made for the transportation of the pallets, provided the shipper specifies the weight of the pallets on the bill of lading.

Note 1 - When material, not a part of the pallet, is used to protect the top of the shipment or to help secure the load to the pallet, allowance will be made for the weight of the pallet but not for the additional material.

Note 2 - The weight of the pallets may not exceed 3% or 1,000 pounds, whichever is less, of the weight of that portion of the shipment loaded on such pallets. Any excess weight will be subject to the rates applicable to the commodity loaded on such pallets.

Note 3 - When the total weight of the shipment, less the weight of the pallets, is less than the minimum weight provided in connection with the applicable rate, charges will be assessed on the basis of the prescribed minimum weight.

Note 4 - The term "pallet" includes and is interchangeable with the terms "platform" and "skid."

MINIMUM WEIGHT PER PIECE
(Applicable only where specified reference is made hereto)

ITEM 997

Charges on shipments made subject to the provisions of this item shall be calculated on the actual weight of the shipment but not less than 15 pounds per piece.

Conditions and Definitions:

1. The word "piece" refers to that single quantity of freight which in the normal course of loading, transferring or unloading is individually handled as a unit.
2. The minimum shipment weight determined by use of this item, when greater than the actual weight, shall be used to calculate the freight charges and, unless otherwise specifically provided, will not be considered as the applicable weight to be used for any other purpose.
3. In no case shall the weight calculated by use of this item exceed:
 - A. 22,500 pounds per each "pup" or "doubles trailer" required to transport the shipment, or
 - B. 43,000 pounds per each "van" or "standard trailer" required to transport the shipment.
4. Provisions of this item will not apply in connection with shipments subject to **CAPACITY LOAD** or **EXCLUSIVE USE OF VEHICLE** provisions in Items 390 and 525 of this tariff; or rates stated in units per mile or per piece of line-haul equipment.
